WG ASTM F792-RT Step Wedge X-Ray Test Object

The WG ASTM F792-RT Step Wedge X-Ray Test Object is used daily to calibrate and evaluate performance levels of X-ray screening systems.

It meets the enhanced multi test x-ray test standard that has replaced the previous standards.

It complies with the FAA, TSA, Transport Canada, and DHS requirements.

Note: We can still provide the previous versions of the ASTM Stepwedges and we can manufacturer kits for vehicle or container screening compliance.
