WG Door Entry Ram Kit

This kit comprises of an Door Ram, Mitts and Forearm Protectors. The mitts and forearm protectors have been designed to offer the wearer a high level of protection against hand and forearm injury during MOE operations when using the Enforcer. The 18" puncture-resistant, double palm leather.

STANDARD FEATURES

- Buy all three items and save money
- For maximum protection when using the Enforcer
- High quality design and manufacture

Forearm Protectors

- The Forearm Protectors, in conjunction with the Mitts, have been designed to offer the wearer the highest level of protection when using the ram family of tools. The 46cm puncture resistant, double palm leather mitts (2 layers of leather with a Kevlar interlining) extend up to the elbow and provide excellent resistance against abrasion and puncture. The 2mm Forearm Protectors, worn inside the mitts, provide additional puncture and crush protection. We recommend the use of both mitts and forearm protectors together for maximum protection.

Protective Leather Mitts

- These mitts have been designed to offer the wearer the highest level of protection when using the Enforcer family of tools in MoE operations. The 46cm (18") puncture-resistant, double palm leather mitts (two layers of leather with a Kevlar interlining) extend up to the elbow and provide excellent resistance against abrasion and puncture. We highly recommend the use of both mitts and forearm protectors together for maximum protection.
