WG 480 Economy Pedestrian Turnstile

The WG 480 Economy Pedestrian Turnstile is suitable for operation in internal or external environments.

It can be provided with a 90-degree or 120-degree rotor and with straight or hooped bars.

It can be provided in a powder coated or stainless-steel finish.

It can be electrically controlled for entry and exit or there is a free wheel option.

It can be provided with fail locked or unlocked solenoids to conform to security or fire safety requirements.

Its logic control accepts voltage free contacts from most access control devices, e.g. card readers, code locks, proximity readers, etc.

12-volt dc logic control unit integral with the 230-volt mains AC mains supplied power unit.

Options

- 90-degree or 120-degree rotors
- Choice of RAL colours (POA) (Standard colour white or black)
- Stainless-steel frame work finish option
- Fail locked or fail safe in the event of a power failure
- Installation Service Available
- Straight or hooped bar rotors in either stainless steel or mild steel powder coated finish

The Turnstile fitted with a pedestrian gate incorporating a magnetic lock & closing mechanism
