WG Mechanical Tyre Killer

The WG Mechanical Tyre - Killer is an ideal vehicle access limiting solution.

It's operation is purely mechanical, it does not require electricity.

Two types are available: -

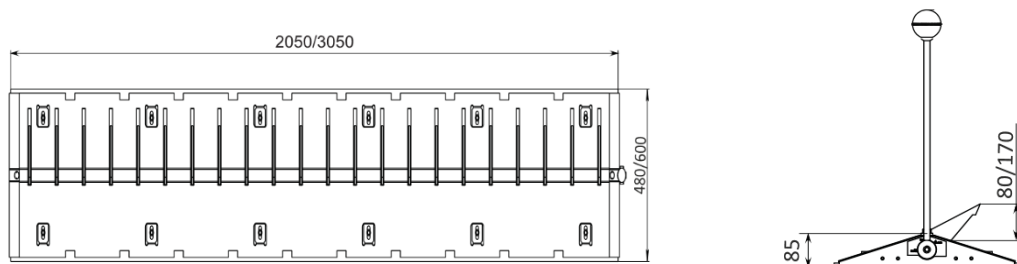

- With springs where the spikes are always in the raised position and safely pushed down by the vehicle tyres when exiting the area;
- With lever operation to lower the spikes.

INSTALLATION AREAS

- Governmental institutions
- Military bases
- Nuclear power plants
- Production sites (industrial plants)
- Commercial areas
- Financial institutions
- Airport facilities
- Business (office) centre
- Hotels
- Parking lots
- Recreation areas
- Urban areas
- Education institutes

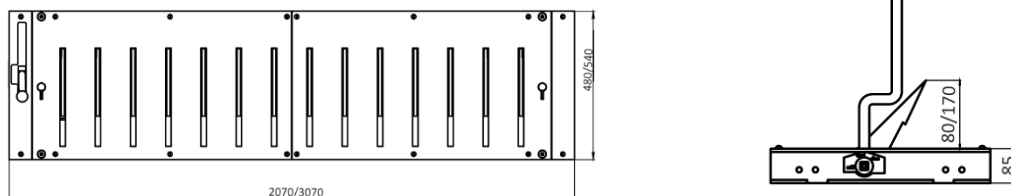

TECHNICAL SPECIFICATION

Above the Ground Installation

Model	WG379-06	WG379-07	WG371-02	WG371-03
Installation type	Above the ground (with ramps)			
Drive	Mechanical			
Spikes direction	One-directional			
Width, mm	2000	3000	2000	3000
Blade height, mm	80		170	
Load per axle, t	15			
materials	Structural steel C22 (galvanized and powder coated)			

Shallow mounted installation

Model	WG379-16	WG379-17	WG371-07	WG371-08
Installation type	Shallow mounted			
Drive	Mechanical			
Spikes direction	One-directional			
Width, mm	2000	3000	2000	3000
Blade height, mm	80		170	
Load per axle, t	15			
materials	Structural steel C22 (galvanized and powder coated)
