## WG Blast Containment Trolley

The WG Blast Containment Trolley provides the means for rapid and safe isolation and removal of suspicious threats items from the security screening operational areas of airports, ports, government facilities, logistics companies etc

It has been designed to meet the operational requirements of security screening operations, it is optimally sized to allow it to fit alongside security screening systems.

It has a wide opening door and large internal volume that will allow an entire standard pallet to be contained within it.

### Key Features

- Avoids costly evacuations or disruption of business operations
- Blast and fragment containment – many times the anticipated threat level
- Holds a standard sized pallet
- Large internal capacity
- Optional adjustable internal shelf to fit conveyor belt systems
- Protects people and surroundings from lethal blast effects
- Simple operation – no hydraulics, pneumatics or electronics to fail or initiate detonation

## Suspect pallets and packages contained in seconds

- Crane lifting points
- Full face opening for easy internal access
- Heavy duty shelf – able to hold a pallet of 500kg+
- Large door aperture 1.5m x 1.5m / 5ft x 5ft
- Large internal space of 3.4m<sup>3</sup> / 120ft<sup>3</sup>
- No hydraulics, pneumatics or electrics to fail or initiate detonation
- Protective weatherproof cover available for outside storage
- Single action self-locking for prompt closure
- Standard airport trailer or road going trailer mounted options available
