## WG SEQUENTIAL RECHARGEABLE PRO

This sequential version of Pro has the advantage of having a simplified sequential flash operating mode with a raised power button inside the case to activate the sequence instantly for quick deployment. This provides a 'flow' effect of light as each Pod flashes in turn, ideal for use on faster roads where a greater distance is needed between light units. Ideal for roadside hazards, traffic control, signalling, hazard awareness and vehicle safety. Emergency Responders, Police, Fire and Highway Services.

### SPECIFICATION
