

Patho3gen Footwear Sanitiser

WESTMINSTER
GROUP PLC

Product Code: 12270

KEY FEATURES

Works in 8 Seconds

Up to 99.999% Disinfection of footwear

Kills Covid-19, VRE & MRSA

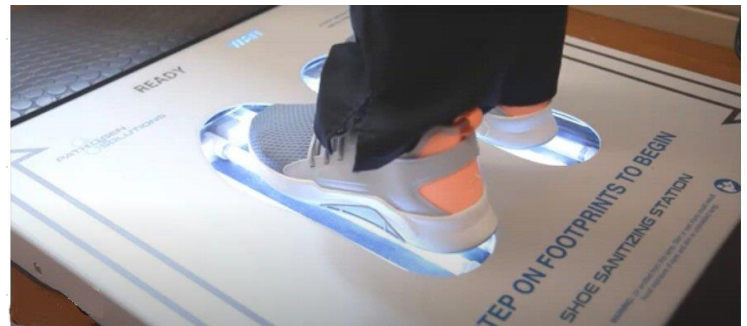

Plug & Play functionality

NSF Laboratories Tested +UL Certified

Utilises Ozone +UVC patented technology

Overview

The Patho3gen Footwear Sanitiser is a uniquely innovative product that uses UVC and Ozone patented technology to effectively kill Coronavirus Covid-19, VRE, MRSA, and other deadly microorganisms.

The device can be placed anywhere, and set up rapidly. The user steps on for 8 seconds, after which 99.999% of all pathogens, bacteria and viruses will have their DNA denatured and destroyed. The device will eliminate Coronavirus Covid-19, leaving zero viral residue on footwear.

It is a perfect solution for Medical Facilities, Gyms, Offices, Educational Facilities and any buildings where people are concerned about the risk of infection such as during the Coronavirus Covid-19 pandemic.

Patho3gen Footwear Sanitiser

Dimensions & Weight

Length 61 cm
Width 61 cm
Height 5 cm
Weight 15 kgs

Electrical

Voltage 220v, 50 / 60 Hz
Wattage 150 w
Lead length 457 cm

Compliance

NSF Laboratory Tested
UL Certified
ISO 9001 Certified Manufacturer

Easy To Use

Plug & Play Functionality, Simply Step on & off
IT Does not require an operator, Starts working immediately, No consumables required
