WF200 Silver Reflective Film

The WF200 Silver Solar Reflective Film is extremely effective in both commercial and residential applications; it is designed for challenging environments where a high level of solar control is needed, without compromising the appearance of the building.

It is one of the most powerful and popular solar heat reflective films on the market, ideal when maximum solar energy reflections required, providing un-surpassed solar performance together with high levels of visible glare reduction.

STANDARD FEATURES

- Reduces Light Transmission
- Reduces Solar Energy Heat Gain
- Reduces UV Radiation
- Reduces Visible Glare
- Silver colour
- Uniform Appearance

KEY BENEFITS

- Increases Visual Privacy
- Protects Against Fading: Blocks UV Rays
- Reduces Eye Strain: Increases Comfort Levels
- Reduces Heat Gain: Saves Energy Usage
- Visual Enhancement: Improves Aesthetics

PERFORMANCE DATA

- Solar energy transmitted - 13%
- Solar energy absorbed - 38%
- Solar energy reflected - 49%
- Visible light transmission - 18%
- Visible light absorbed - 27%
- Visible light reflected – Interior - 56%
- Visible light reflected – Exterior - 55%
- Ultraviolet rejected - 99%
- Shading coefficient - 0.26%
- Glare reduction - 80%
- Solar heat gain rejection - 74%
- Total solar energy rejected - 78%
- Ply - 2
- Thickness - 2mm – 50microns
