WESTMINSTER  
GROUP PLC

## Key Features

Visual alert when a person is too close

Sound alert when person is within 1 metre

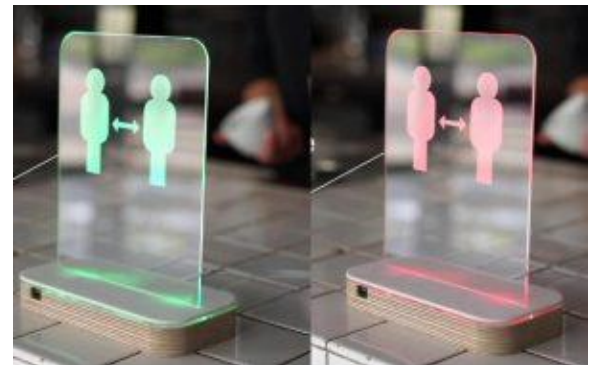

Distances for alerts can be re-programmed

USB Powered

Styled to fit in anywhere

## Overview

The Social Distancing Alert Device is a cost effective and practical solution for bars, cafes, car showrooms, check-in desks, cinemas, doctors surgeries, hospitals, hotels, offices, restaurants, shops, theatres etc to operate safely and comply with social distancing guidelines.

The device is simply mounted on a counter, bar or check in desk to provide an alert if people approach too close.

The device is normally LED illuminated Green, if a person approaches too close within 2 metres the illumination changes to Red.

Option – A sound alert will be given if a person is within 90 cm, this can be turned off.

The distance alert can be re-programmed to shorter distances i.e. if the Covid-19 social distancing guidelines are reduced, via a free mobile app.
