

WGE Narcotics Detection Kit

WESTMINSTER
GROUP PLC

Product Code: 11418

Key Features

Intelligent self-monitoring

Explosive & drug detection

Easy to use diagnostics capability

Multiple languages

No radiation source

Portable

Overview

The WGE Narcotics Detector is an easy to use one-handed operation detector, ideal for law enforcement and hazmat, EOD/ bomb squads and Building and asset protection.

The detector is enclosed in ruggedised protective boot, and sealed in a water resistant enclosure, and combined with its one-handed operation, this makes it the ultimate battle-ready detector.

It has industry-leading automated colorimetrics which provide accurate detection capability with complete detection screening from a single test.

It has intelligent self-monitoring and an easy to use diagnostics capability, meaning it needs very minimal maintenance.

Features

Easy to use digital diagnostics capability

Portable

Intelligent self-monitoring

Rugged and water resistant

Very low maintenance, no downtime

Non-visible & bulk detection

General Specifications

Detection type: drugs and narcotics

Sample type: trace and bulk

Technology: Handheld automated colorimetrics

Power & Supply

Battery: internal rechargeable Li-ion

Data transfer method: USB dongle, direct print (Bluetooth, Wi-fi, wireless capabilities)

Languages: All languages capable

Screen: full colour LCD 240 x 400 (resolution)

Start-up time: <30 seconds from power down, adjustable auto-shutoff or screen dimming

Storage capability: >100,000 tests

Other: on device report building, GPS capable, password protected menus

Physical & Environmental

Environmental: Ruggedized: MIL-STD 810G

Dimensions: W67 x H111 x D36 mm

Weight: 240g

Water resistant: IP66

Drugs detected

Cocaine
Ketamine
Methamphetamine
Opiates
Synthetic cannabinoids
THC
Others
