### Overview

**This is an ideal mobile solution for the disinfection of entire hotel rooms, offices, medical centres, offices, schools, shops and other areas.**

The system enables simple, fast and safe disinfection of rooms, it will kill 99.99% of bacteria and viruses.

The UV-C penetrates the outer structure of the cell and alters the DNA molecule, preventing replication and causing cell death.

A 120 m3 room can be 99.99% disinfected in 12 minutes, multiple positioning of the system may be required to reduce shadow areas. A PIR motion sensor will shut the system down if a person is detected.

The systems utilises 6 high power shatter proof UV-C emitters.
