**WESTMINSTER**  
GROUP PLC

## Specifications

1080p

130° Viewing Angle

Compact and Rugged

Easy to configure

Mount in multiple ways including helmet,  
lanyard and chest

Drop in dock Station Available

## Overview

Westminster's body worn cameras are an ideal solution to ensure the safety of your staff members.

The rugged body worn cameras have a recording time of 13.5 hours, ensuring continuous coverage throughout the day.

The convenient drop in dock systems allows the cameras to be charged and video content to be uploaded simultaneously. Making the system fast and convenient to use.

The camera system does not require a stand alone PC to store and review footage – instead, the content is uploaded via an internet connection and is accessed through the cloud – this ensures all data is held safely and can be accessed remotely where required.

Chest & Shoulder Harness

Helmet Mount

Lanyard With Fixed Spring Clip

## Features

Drop in dock system allows for auto upload to the cloud and simultaneous charging

No need to plug into a PC

4g options available

Rugged design

Multiple ways of mounting and wearing
