

Garret Super Scanner V

WESTMINSTER
GROUP PLC

Product Code: 1080-03

Key Features

Detects Metallic & Non-Ferrous Metals

Audible / Vibrating & Red LED Metal Indication

ECAC & NIJ0602.02 Approved for Airports & Prisons

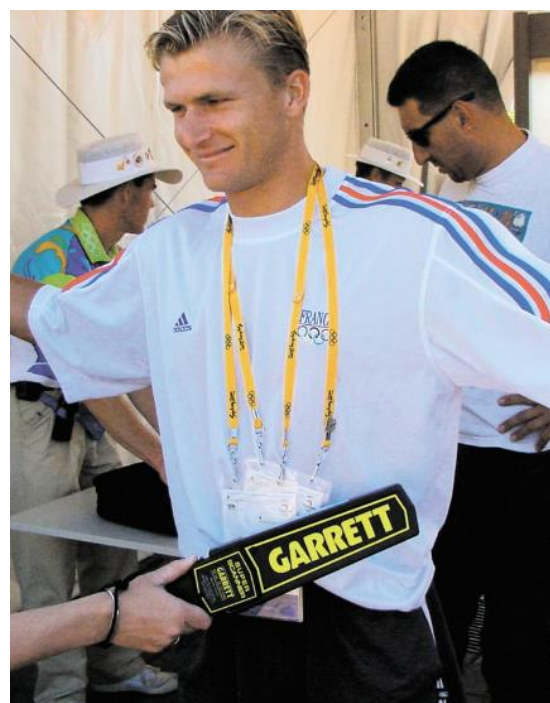

Easy to Use

Self-Calibrating

Poses No Health Hazard

Overview

The Garrett Super Scanner V Hand-Held Metal Detector meets international security standards for use in airports, prisons, and special events and additional standards including ECAC and NIJ 0602.02.

It will detect ferrous, non-ferrous and stainless steel weapons, contraband, and other metallic objects.

It will detect a medium sized pistol from 9" distance, a large knife from 6" distance, box cutters from 5" distance, hand cuff keys from 4" distance, razor blades from 3" distance, 22-caliber long rifle cartridge from 2" distance, foil-wrapped drugs and tiny jewellery from 1" distance.

An audible alarm or selectable vibration and a bright red LED indicates the detection of metal.

Self-calibrating digital microprocessor technology eliminates the need for periodic sensitivity adjustment.

It has no adverse effects on pregnancy, medical devices such as pacemakers or magnetic recording media.

Features

Detects Metallic & Non-Ferrous Metals

Audible / Vibrating & LED Alert

Self-Calibrating

Typical Applications

- Airports
- Critical infrastructure such as power plants, power distribution sites and gas storage facilities
- Checkpoints and cruise ship terminals
- Company premises for protection against loss of property or valuable goods
- Courts,
- Cruise ship & terminals
- Embassies
- Entry and access points in general
- Government facilities
- Large-scale events such as sporting events, music festivals, exhibitions, and conferences
- Military compounds, check points
- Public buildings such as museums and places of worship
- Universities & Schools
- VIP protection

Features

- Detects ferrous, non-ferrous and stainless steel weapons, contraband, and other metallic objects.
- Large scan surface for quick, thorough scanning 8" (20.3 cm)
- Sharp audible alarm and bright red LED indicates the detection of metal
- Selectable Vibrating alarm
- Momentary push button helps temporarily eliminate detection of nearby ambient metal such as rebar, metal walls
- Secure Internal Sensitivity Adjustment
- Self-calibrating Digital microprocessor technology eliminates the need for periodic sensitivity adjustments.
- Weatherproof rubber handle
- Rugged, high-impact ABS case with reinforced coil compartment
- Exceeds Mil-Std-810G (drop test) Method 516.6, procedure II

Specifications

- Three Colour LED Indication: **Green** LED = ON, **Amber** LED = LOW BATTERY, **Red** LED = ALARM
- Operating Temperatures: -35° F (-37° C) to 158° F (70° C)
- Humidity: To 95% non-condensing
- Audio Frequency: 2 kHz Warble
- Calibration – Self Calibrating
- Dimensions & Weight: Width 8.3cm x Thickness 4.1 cm x Length 42 cm - Weight: 500 g
- Battery: One 9v (included)

Standards

- Meets international security standards for airports (including ECAC and STAC) and prisons NIJ-0602.02
- Compliant for Electrical Safety EN 61010
- Exceeds MTBF in excess of 100,000 hour
