

WG Handheld Narcotics Detector

WESTMINSTER
GROUP PLC

Product Code: 2040-16

Key Features

Intelligent self-monitoring

Explosives detection

Easy to use

Multiple languages

No radiation source

Portable

Overview

The WG Handheld Narcotics Detector is an easy-to-use one-handed operation detector, it is ideal for law enforcement officers and customs officers, prison officers.

It is enclosed in ruggedised protective boot and sealed in a water-resistant enclosure.

It uses industry-leading automated colorimetrics which provide accurate detection capability with complete detection screening from a single test.

It has intelligent self-monitoring and an easy-to-use diagnostics capability; it requires needs very minimal maintenance.

Narcotics Detection: Cocaine, Ketamine, Methamphetamine, Opiates, Synthetic cannabinoids & THC.

Features

Easy to use

Portable, one-handed operation

Intelligent self- monitoring

Rugged and water resistant

Very low maintenance, no downtime

General Specifications

Detection type: explosives

Sample type: trace and bulk

Technology: automated colorimetrics; no radioactive source

Technology and sampling

Power & Supply

Battery: internal rechargeable Li-ion

Data transfer method: USB dongle, direct print (Bluetooth, Wi-fi, wireless capabilities)

Languages: All languages capable

Screen: full colour LCD 240 x 400 (resolution)

Start-up time: <30 seconds from power down, adjustable auto-shutoff or screen dimming

Storage capability: >100,000 tests

Other: on device report building, GPS capable, password protected menus

Physical & Environmental

Environmental: Ruggedized: MIL-STD 810G

Dimensions: W67 x H111 x D36 mm

Weight: 240g

Water resistant: IP66

Narcotics detected

Cocaine
Ketamine
Methamphetamine
Opiates
Synthetic cannabinoids
THC
