

ECO Rack

■ 48x40

Introducing the patent pending Eco Rack pallet, the only affordable plastic pallet on the market that is nestable, stackable, and open rackable. Our unique design allows this plastic pallet to work like a wood pallet without relying on the steel or fiberglass reinforcement often used in other rackable plastic pallets. Thus, creating a cleaner, more cost effective pallet, with the strength and durability to meet most industry needs.

The Eco Rack pallet will lower your company's pallet logistics and handling costs, improve product and employee safety, and reduce your company's environmental impact.

Benefits

- Stackable, Rackable, Nestable
- 4 way forklift entry
- Lightweight and durable
- Low Cost
- Environmentally Friendly

100% Recyclable

Technical Data

Bottom Support	Top Deck	Entry	Dimensions (in)	Capacity (lb)	Weight (lb)
4 Runners	Open	4 Way	48 x 40 x 5	2,500 lb (racked,dynamic) 10,000 lb static	22

PALLET WEIGHS 17-22 LBS.

For tying stretch wrap.

Also works for roping.
