

DENSE LOADING

World Leaders in Catalyst Handling

For over 40 years Cat Tech has led the way in catalyst handling through innovation and experience. Our Trained professionals are focused on safety and excellence delivering the best results for your project.

With ever increasing performance standards the precise and controlled dense loading of catalyst is a critical component of effective unit performance. Cat Tech's proprietary JE Dense Loading system is designed to deliver greater control and lower attrition during the loading process for superior results.

- > Computer controlled for precise and consistent results
- > More unbroken catalyst particles for better performance
- > Certified in house technicians for better reliability
- > Higher loading clearance to dense load up to 6 inches below beams or supports
- > Calibrated field testing and loading performance guarantee
