Dear Friends,

Currently, in the Hollywood market and beyond, I'm proud to report that QSR is leading the way in "at home" cloud-based editorial, UHD/4K on-set media management, editorial systems, transcoding services, and digital asset delivery.

We routinely interface with all the with all major content producers—including ABC, Amazon, Apple TV+, CBS, Disney+, FOX, HBO Max, NBC, Netflix, YouTube, as well as the major cable outlets.

The team is committed to strengthening our current industry relationships and cultivating many new ones in the coming years.

All My Best,
Douglas Cavaliere
Principal, QSR Systems

A handwritten signature in dark ink, reading "Douglas Cavaliere". The signature is fluid and cursive, with the first name "Douglas" being larger and more prominent than the last name "Cavaliere".

WHO WE ARE

Market Leader

QSR Systems is the leading west coast provider of post-production edit and storage systems, on-set media management tools, certified remote editorial solutions, and in-house transcoding/archive/upload services optimized for UHD/4K distribution across all M&E platforms.

Client Focused

Located in Southern California, our dedicated, highly-skilled staff has been delivering state-of-the-art technical solutions since 1991. Our sole focus is excellent, efficient client support. No drama. No excuses. We're not happy unless you're happy.

Workflow Innovator

Quality, well-maintained gear is obviously extremely important, but it's certainly not the key differentiator between us and every other post rental provider in town. First and foremost, QSR is an engineering-based company. We take great pains to spec each and every project—glass to glass—with the utmost attention to detail and overall client satisfaction.

HOW WE FOCUS

Quality

All of our solutions at QSR Systems are engineered, integrated, and tested for 100% quality assurance.

Approach

Our boutique client approach starts with a custom analysis of your project needs and requirements (HD/UHD/4K/HDR).

Results

Upon careful analysis, we'll spec rental and service solutions that produce optimal results, on-time and on-budget.

Project Needs

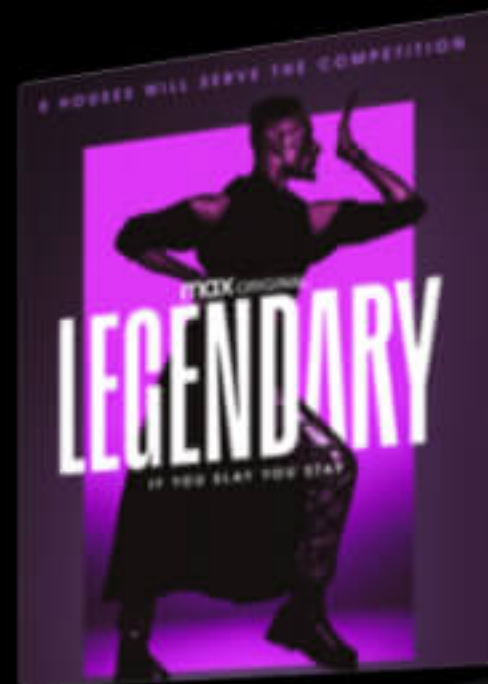

Whether you need one edit system or an enterprise-level multi-location collaborative solution, QSR Systems is a one-stop shop for all your technical needs. We offer a wide variety of on-set and post-centric gear customized to meet your specific workflow needs.
