LEANSTAFFING

At **Lean Staffing** we understand that finding the right people to manage your processes is a challenging task. We make it simple, providing your company with the right talent: highly educated, bilingual and motivated professionals that are eager to learn and who understand the fast-paced necessities of the transportation and logistics industry. But that's not all!

We'll also take care of critical HR responsibilities; office facilities branded with your logo and colors and help train your future employees giving them the knowledge to fulfill your objectives.

These are the positions and services we offer:

Track and trace

Safety

Dispatch

Invoicing – billing

Documentation

Customer care
