

Powerful. Flexible. Covert.

FleetLocate FL Flex

Introducing the future of trailer management - a powerful, customizable GPS tracking solution that arms fleets and OEMs alike with a single, proven device to support a myriad of configurations - the FL Flex.

MODULAR SOLUTION FOR MODERN TIMES

The FL Flex is the industry's first modular trailer tracking solution. It has a flexible base unit that is the latest generation in Spireon's product line that allows you to buy a versatile, small footprint base unit and configure or tailor the solution to meet your fleet's needs. Mount the device covertly under a dry van trailer and add on the optional solar panel on the nose or roof, or for an even faster installation put both the solar panel and base unit on the nose of the trailer. The FL Flex is designed to let you add on sensors such as door, cargo, temperature, tire pressure, etc., as your fleet sees fit. Please reach out to your Authorized Reseller for information about sensor availability.

DO MORE WITH WHAT YOU HAVE

Armed with the power you gain from the FL Flex, you'll have the intelligence you need to:

- Improve trailer utilization
- Increase the number of turns per trailer
- Optimize trailer inventories at key locations
- Right size your fleet
- Do more with the trailers you have

FleetLocate FL Flex

ACTIONABLE INTELLIGENCE

The FL Flex captures rich data then converts it into business intelligence you can use to make more profitable decisions about your fleet, more quickly.

- Intuitive graphical user interface puts information at your fingertips
- Automated reports present information most relevant to senior management, managers and ops
- Exception-based alerts notify you the instant an event has occurred
- Monitor and control detention time
- Eliminate wasted driver time and fuel looking for empty trailers
- Locate trailers whether empty or full, at all times
- Maximize trailer utilization and efficiency

TRAILER MILEAGE

- Track turn-by-turn miles with GPS coordinates every second
- Scheduled your PMs based on real mileage
- Bill leasing customers for actual mileage driven

FL FLEX IS YOUR CHOICE FOR GREATEST FLEXIBILITY

By itself, the FL Flex is a small but powerful GPS trailer tracking solution. But its modular design means fleets can leverage a full suite of add-on devices to create a fully customizable solution.

SMALL FOOTPRINT, COVERT AND UNTETHERED INSTALLATION OPTIONS

The FL Flex has a tiny footprint and supports covert and untethered installation for sheet and post trailers. When combined with the modular solar panel installed on the roof of the trailer, the solution provides all the tracking power you need without attracting attention.

POWER MANAGEMENT VIA SOLAR

Extend the FL Flex's reporting life with state-of-the-art solar harvesting technology.
