A Middle Eastern Christian Perspective on Lent, Holy Week, and Easter Readings

For Christians in the Holy Land, the “Fifth Gospel” of the physical and cultural landscape informs their exegesis and preaching to the ever-shrinking Christian population.

Join us for a very enlightening Preaching Perspective as we welcome the wisdom and perspective of three ELCJHL Pastors who are Doctor of Ministry students at ULS. The presentation will include:

- A Palestinian perspective on lectionary writings
- Extra-biblical cultural traditions around Holy Week and Easter
- An exposition of various ministry contexts in Amman, Jerusalem, and Beit Jala (near Bethlehem)
- Enhancing our understanding of time and space around the passion and the associated holy sites.

Workshop Presenters

Pastor Imad Haddad

Pastor Ashraf Tannous
