HOME BED

1

2

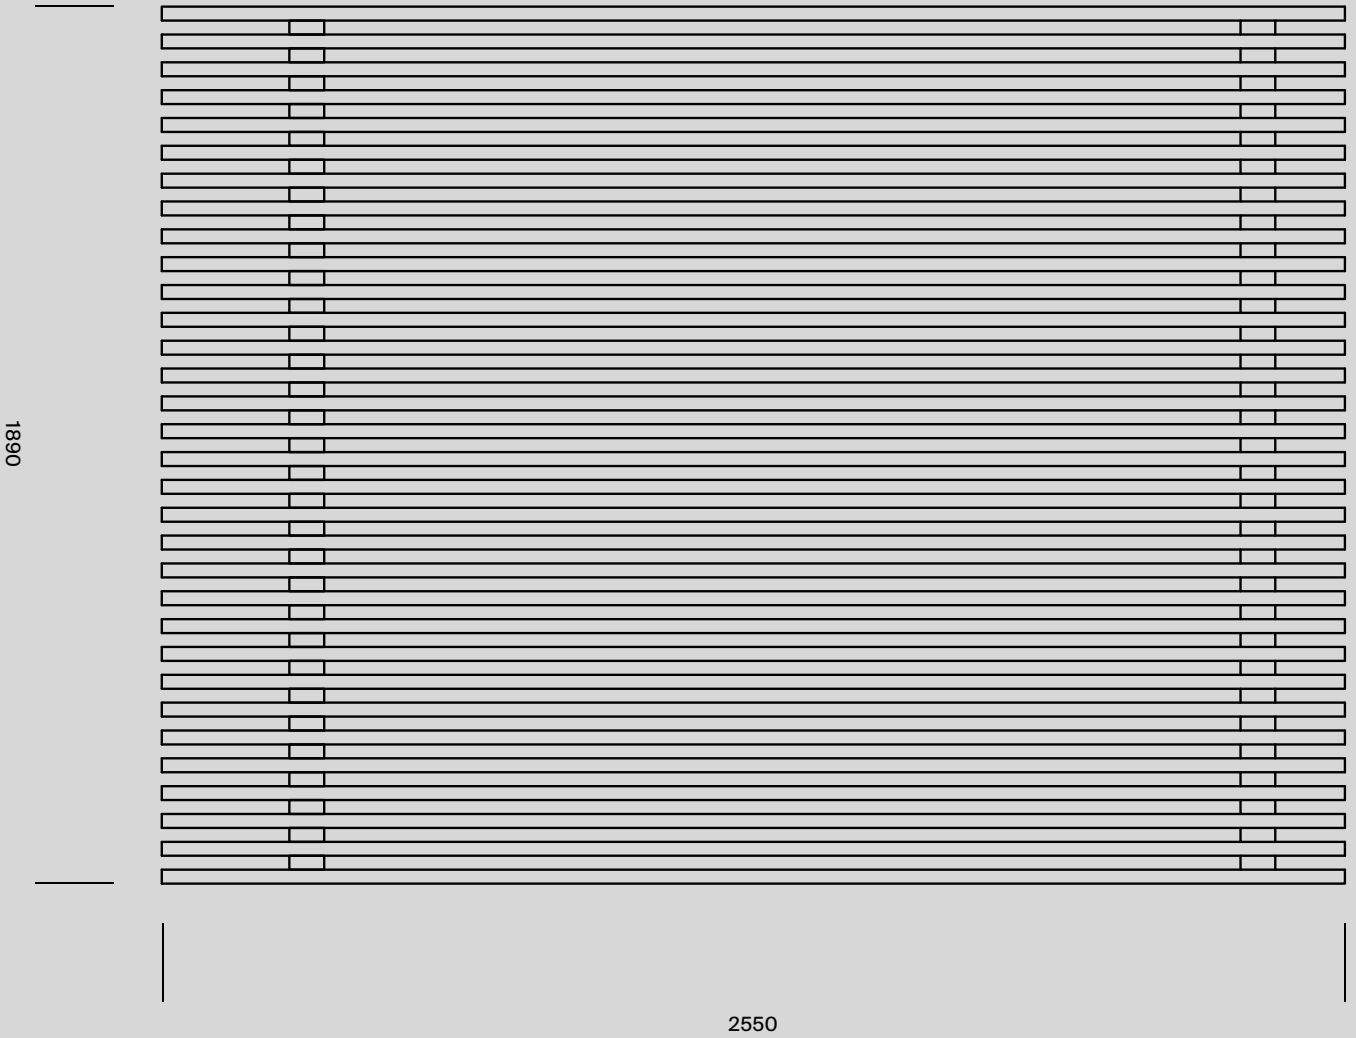

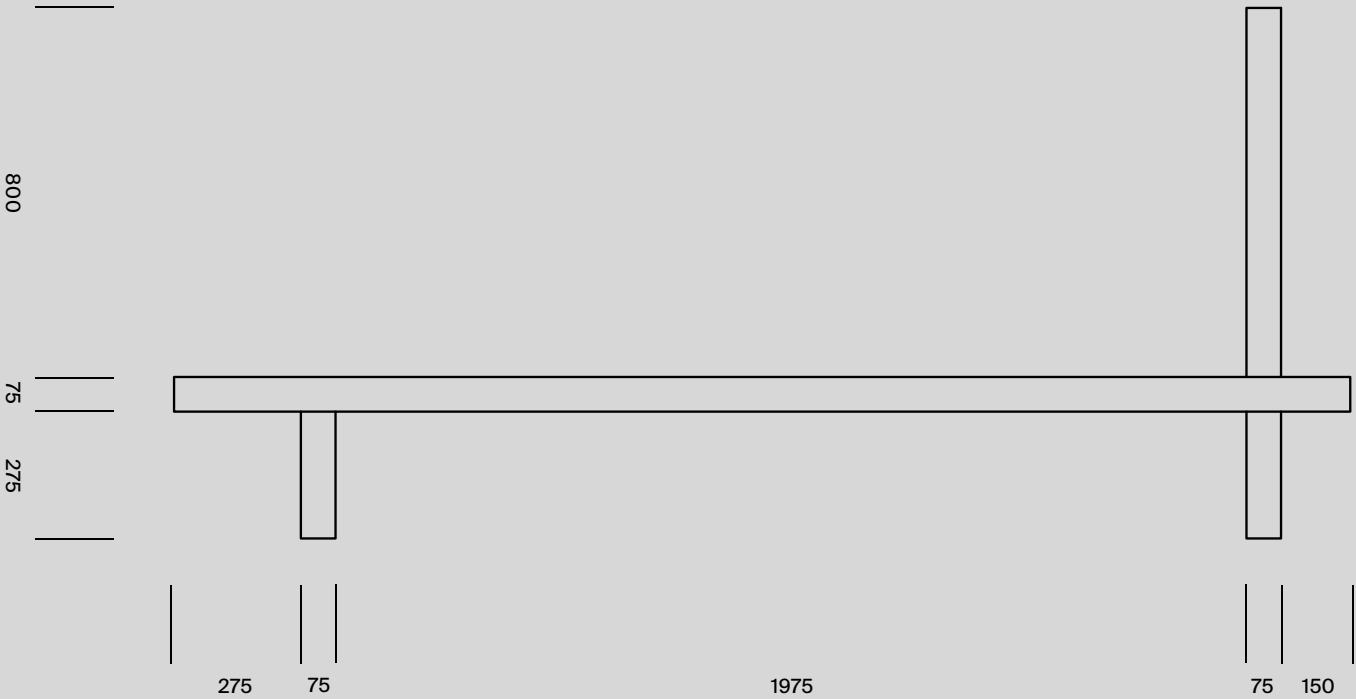

1 Construction detail
2 Frame connection detail

The HOME BED is built upon a logical series of perpendicular slats that allow for the formation of rectangular shapes. The solid timber construction gives the bed a significant, reassuring presence.

A studio founded to focus on the design of objects and spaces. Our work is characterised by deceptively simple forms, drawing heavily upon primary shapes that exude a sense of calm. Pragmatic sensibility and perpetual curiosity towards material and process results in original, thought provoking work free from superfluous detail.

Material	Solid Timber
Finish	Natural Matte Lacquer
Dimensions	Standard
mm	
Length	2550
Width	1890
Height	1150
