

CANADIAN CUDDLES

One Story of Many Worksheet

TEACHER GUIDANCE SHEET

Required Material:

- ▶ The One Story of Many Worksheet
- ▶ Pens / Pencils

L.O:

- ▶ To understand the power of storytelling.
- ▶ To be able to tell a part of my own story.

STARTING ACTIVITY (5mins)

GROUP DISCUSSION – Together share the best story you have ever heard and discuss why you think that is the case and what kind of impact it could have on those that hear it.

MAIN TEACHING (10mins)

Tell the children that being able to tell a good story is a brilliant super power. Ask the children to suggest reasons why.

Tell them that stories have the ability to make people feel emotions, to spark imagination, improve understanding and communication. Being able to craft a good story out of something, such as an event, memory or everyday situation, can help people better understand us as individuals. And the attention we give to different elements of the story can say a lot about us.

If we keep in mind that we can share something via a story it can help us to become more aware of what is going on around us, and take in and remember more information.

MAIN TASK - (15mins)

Tell the children that our lives are not one long story, but are made up of lots of little amazing stories,

adventures and experiences that make us who we are. And we can share those stories with others to give them an insight into how wonderful we are as individuals.

Lots of incredible things happen to us everyday, things that could make for a brilliant story to share, or just to keep for ourselves.

Have the children think of something that has happened to them that they think would make a wonderful story. Then have them write or draw their story out on the worksheet to share with their friends or family.

PLENARY (2mins)

GROUP DISCUSSION – Ask for volunteers to share their stories with the rest of the group and have others comment on how it made them feel.

DID YOU KNOW!

Some National Parks in Canada are bigger than many countries in the world. Wood Buffalo N.P. Is bigger than Denmark and Nahanni N.P. Reserve is bigger than Israel.
