Intro

Verse

We pray for the mountains to move
We pray for the oceans to part
We pray for a miracle
In our hearts, In our hearts

No need to hide back in the grave
No need to hold back any song
You said we can come now full of faith
It's what You promised
What You promised

Chorus

We believe it's al-ready done
Every battle's al-ready won
It is finished, it is perfect
We believe You've overcome
And it's al-ready, al-ready done

Verse

We will sing like heaven is here
We will run like freedom is ours
We will dance cause You brought us this far
Take us further, take us further

Bridge

You said it
We believe it
You spoke it
We receive it
Your kingdom come
Right here in us (2x)
