### THE COLOR PALETTE

**THE LOOK |** The spaces are welcoming and exude a feeling of kindness. The details are thoughtfully researched to induce a gentle calm. Finishes are soft to the touch, lines are curvy, and the furniture is chosen with consideration for a restful comfort.

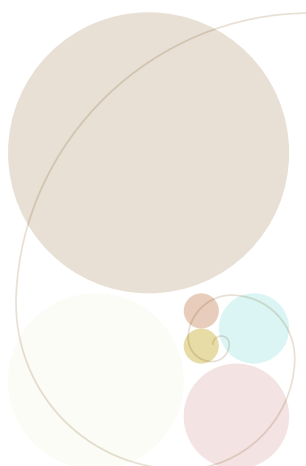

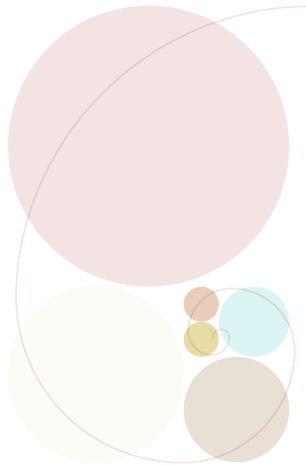

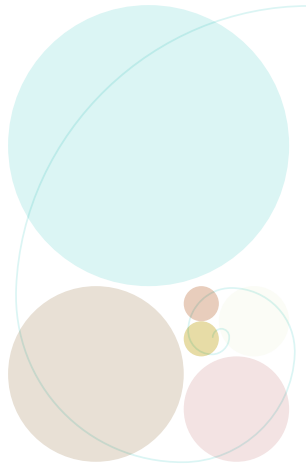

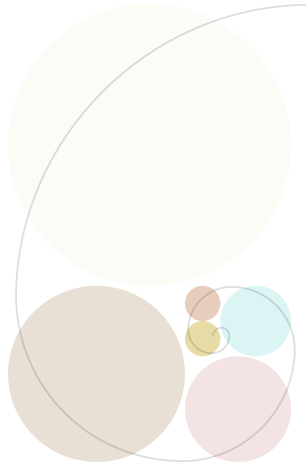

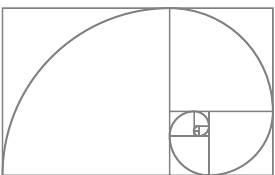

**HOW |** Soft tones here are key. Beige is migrating into soothing pale pinks and corals. Light natural stones and wood are used to add a warm complement to the colors.

# Pick the perfect color palette

We always suggest  
when using a  
color palette to  
allocate different  
colors according to  
the proportions shown  
in this palette. It is a  
design tip based on  
the aesthetic principle  
known as the  
“Golden Ratio”.
