Jeff MacInnes, PhD

data visualization/data science

portfolio jeffmacinnes.com
email jeff@jeffmacinnes.com

I work with organizations to take **complex data** and distill it into **rich**, **engaging**, and **interactive visualizations**.

My work spans the entire process: **wrangling raw data, statistical analysis, visual design,** and **production coding/development**.

I've created dozens of works, ranging from **interactive websites**, to **mediawall installations**, to **static infographics**.
