

Boundary and Security Fence Inspection Checklist

Conduct a quick and simple inspection of your safety & security fencing to restrict unauthorized entry and protect your site from possible damages. Find the digital version of this form and more at <https://www.fulcrumapp.com/apps/boundary-and-security-fence-inspection-checklist>.

Inspection Location Street Address _____

City, State, Zip _____

Checklist

- ▶ Is the fencing constructed from suitable, dedicated materials with no holes or gaps?
 Yes No

 - ▶ Are the fencing panels difficult to climb?
 Yes No

 - ▶ Is access under or through the fence barricaded – ie no gaps throughout the construction process?
 Yes No

 - ▶ Is fencing erected on a firm foundation throughout the construction process?
 Yes No

 - ▶ Is the fencing installed on level ground – ie a lean of less than three degrees out of vertical?
 Yes No

 - ▶ Is the fence erected in a general straight line within the site boundary?
 Yes No
-

- ▶ If you have temporary fencing, is it erected within the boundaries of the construction site? (If fencing protrudes onto public areas, you need permission from the council.)
 Yes No
- ▶ Are electrical turrets external to the installed fence?
 Yes No
- ▶ Is fencing stable and able to withstand any anticipated loads to which it will be subjected – including wind loads, persons attempting to scale it, forces caused by people in heavy pedestrian areas or impact forces from vehicles or plant?
 Yes No
- ▶ Are adequate support brackets installed – especially if shade cloth, signage or advertisements are installed on any section of the fencing?
 Yes No
- ▶ Do fencing gates provide the same level of security as the rest of the fence? (locks and chains should be fitted for added site security and safety)
 Yes No
- ▶ Are gates overlapped so they can be locked easily, and are they reasonably level for opening safely?
 Yes No
- ▶ Does signage on the fence include relevant information – including 24-hour emergency contact name and telephone numbers?
 Yes No
- ▶ Are all fencing panels handled safely and stored in the flat (horizontal) position?
 Yes No
- ▶ Is the fence regularly inspected (weekly, dependent on the work and activities are undertaken on site) to ensure it is safe, secure and still fit for purpose?
 Yes No
