

# Portable Restroom Service Checklist

This checklist helps you know all the details and location of your portable restroom inventory. The Fulcrum app helps you keep a record of its location details and service records from your phone. Know the lifetime history of each portable or equipment rental you have in your inventory. Make sure service of inventory is being maintained ahead of schedule.

With Fulcrum, you can ditch the paper and pen forms and keep your team on schedule with your own custom made app that meets your exact needs. Use either a serial number or barcode and never worry about losing your inventory due to bad record keeping. Find the digital version of this form and more at <https://www.fulcrumapp.com/apps/portable-restroom-service>.
