Guidelines for the Classification of Property as Farm Land for Rating

There are some hard words in this form. The hard words are in blue. You can read what the words mean on page 8.

The following is the meaning of "Farm Land" as set out in the *Valuation of Land Act 1960, Section 2* -

"Farm Land" means any *rateable* land-

(a) that is not less than 2 *hectares* in area; and

(b) that is used primarily for grazing (including *agistment*), dairying, pig-farming, poultry-farming, fish-farming, tree-farming, bee-keeping, *viticulture*, *horticulture*, fruit-growing, or the growing of crops of any kind or for any combination of those activities; and

(c) that is used by a business –

(i) that has a significant and substantial commercial purpose or character; and

(ii) that seeks to make a profit from its activities on a continuous or repetitive basis from its activities on the land; and

(iii) that is making a profit from its activities on the land, or that has a reasonable prospect of making a profit from its activities on the land if it continues to operate in the way that it is operating

The following *guidelines* have been used to understand and meet the terms of "farm land" as mentioned above.

It is the responsibility of the applicant to prove to Council that the following *guidelines* have been met.

1 General

1.1 "Business"

The activity being carried out on a property must be a business, not a hobby or recreational activity.

The activity must be carried out for the purpose of earning an income on an ongoing basis.

Have a status of "*primary producer*" with the Australian Taxation Office

1.2 "Primarily"

Comparison of areas occupied by a residential or commercial use and a farming business is not the only factor. Regard also has to be had to the relative weights of the competing uses.

Where there is a business undertaking which has the *characteristics* of a business, as defined earlier, and where the *dwelling* and *curtilage* have settled a minor area, it is not important how much money is spent in the residential use.

2 Specific Business

2.1 Grazing (including [agistment](#))

The running of the business of grazing usually involves the buying and selling of livestock. The starting up of a herd or flock for future breeding purposes may be enough to satisfy the meaning, providing it is clearly shown the final goal is for [commercial](#) production.

The Act now provides for [agistment](#), where an [occupier](#) takes in stock belonging to someone else and charges a fee in return for care of the stock. The [occupier](#) must be running a grazing or [agistment](#) business on the property.

2.2 Dairying

Dairy farming is the business of long-term milk production, which is processed (on-site or at a dairy plant) for sale of a dairy product. This business has similar [characteristics](#) to grazing (2.1).

2.3 Pig-farming

Pig farming is the raising and breeding of domestic pigs. Pigs are raised mainly as food (e.g. pork, bacon, gammon) and sometimes for their skin.

2.4 Poultry farming

Poultry farming is the raising of domesticated birds such as chickens, turkeys, ducks, and geese, for the purpose of farming meat or eggs for food. This business can be carried out profitably on a small property.

2.5 Fish farming

Fish farming involves raising fish [commercially](#) in tanks or enclosures, usually for food. It can also include yabbies or tropical fish for pet stores. This business can be carried out on a small property but could involve development of ponds or outlay for tanks.

2.6 Tree farming, [Viticulture](#) and Fruit Growing

These activities cannot become profitable for several years until trees or vines mature enough for [harvesting](#) or to bear fruit.

It should be noticeable that the land is being prepared for these purposes before an application is submitted. After the application it should also be noticeable that plantings are being maintained and developed for [commercial](#) production.

2.7 Bee-keeping

This is a use which can be carried out on land which is uncleared, although the [characteristics](#) of a business must be satisfied.

2.8 [Horticulture](#) or the growing of crops of any kind

[Horticulture](#) is the business of plant [cultivation](#). It includes the [cultivation](#) of fruits, vegetables, nuts, seeds, herbs, sprouts, mushrooms, algae, flowers, seaweeds and non-food crops such as grass and ornamental trees and plants.
