</tr>
</tbody>
</table>

*Spring & Summer semesters require 180 hours each, Fall is 240 hours. Rotations can be either OB, GYN or a combination of both.

**Rotations Must Include:**
- Primary Care
- Obstetrical Care
- Gynecological Care

**Students Participation in Clinical Rotations:**

The Women’s Health Gender Related NP program is built based on progression from well patient/annual exam and preventative care visits beginning at puberty to complex episodic care of patients with multiple comorbidities, as well as care of the pregnant patient before, during, and after pregnancy. Our national competency outcomes mandate clinical experiences across the continuum of care and across the scope of practice for the WHGRNP.
