EXPERIENCE

Brooke has substantial patent experience that extends to a variety of fields, including: computer systems, hardware components, software applications, computer networks, operating systems, peripheral devices, user interfaces, and data management systems; optical systems; Internet related technology; encryption, authentication, identification, and data security systems; telecommunications technology, including smart phone technology and satellite systems; film processing and post-processing technology, multimedia collaboration and distribution systems; casino gaming technology; mechanical devices, including sporting equipment and medical instruments; and material processing and structure, including semi-conductors, composites, and advanced metallic materials. Prior to practicing law, he was a senior engineer in the Aircraft Division of the Northrop Corporation in Hawthorne, California. As a research and design engineer, Brooke developed structural concepts and designs utilizing advanced materials and forming techniques.

AFFILIATIONS

Brooke serves on the Executive Committee of the Washington State Bar Association IP Section. He is admitted to the state bars of Washington and California, and is registered to practice before the United States Patent & Trademark Office. He is a member of the Washington State Patent Law Association (WSPLA). Additionally, Brooke lectures on U.S. patent practice at the University of Washington's renowned Center for Advanced Study and Research on Innovation Policy (CASRIP). He is also a member of the Seattle Executives Association and C3 Business Leaders. Furthermore, he is on the Business Development Committee for the Aerospace Futures Alliance and Washington State Space Coalition.
