

AEROBARRIER.

Air Sealing Technology from AeroSeal

“Living In This Home Just Feels Good!”

A well air sealed home creates a much more enjoyable and safe home for you every day. AeroBarrier’s innovative technology seals your home better than manual air sealing, and provides these important benefits:

- **More comfortable** – fewer drafts mean consistent temperatures and humidity throughout your home
- **Improved indoor air quality** – pollutants, allergens and dust can’t get in your home
- **Lower energy costs** – less heat loss and gain mean lower utility bills
- **Quieter home** – reduce outside noise from traffic and neighbors
- **Fewer pests** – sealing air leaks is a first defense against insects and pests
- **Prevent moisture issues** – maximize safety and durability by minimizing moisture, mold and mildew

What Is AeroBarrier?

Used by many national homebuilders to better seal air leaks in the exteriors of the homes they are building, AeroBarrier is an automated air sealing system that seals leaks as small as a human hair. Our sealant is safe and durable and is GREENGUARD Gold Certified.
