# Eureka Math | EngageNY
Powered by ASSISTments

ASSISTments TEACHER

Your **forever free** digital solution for assigning online - proven effective with a Tier 1 Rating from Evidence for ESSA

- Assign **Homework & Problem Sets** for each lesson as in-class or at-home independent practice
- Finish each lesson by assigning an **Exit Ticket** and use the immediate data to help inform your instruction
- Assign your **Module Assessments** to get quick data on whole class successes and challenges
- Build math fluency by digitally assigning **Sprints** or **Fluency Support**

Integrates with your LMS!

Instructional Hints

Immediate Feedback

Multiple Attempts

Combining Eureka Math/Engage NY with ASSISTments Teacher is **proven to improve math achievement** and achieve great student outcomes with just-in time support features.

"With the automatic grading feature, I get immediate access to student grades and can see what changes I need to make to address their learning needs as soon as the next day!"

What would you do with less time spent on grading?
Create your free account at https://assistments.org to start assigning!

ASSISTments **ADVANTAGE**

Administrators **support growth in student achievement** with actionable data. Teachers make instructional decisions with access to performance data and visualizations.

Insights Hub - A Quick Look into Student Learning

Instructional leaders have real-time access to teacher and student data in one place to easily monitor student progress and identify success across classrooms.

Instructional Support

Implementation Planning
and support connect learning goals with the Eureka Math/Engage NY curriculum.

Professional Learning
enhances existing data practices to improve student achievement.

Coaching
helps you plan effective action steps for teacher support.

What others are saying about ASSISTments Advantage

"Before Insights Hub I had to open multiple tabs in an attempt to analyze student data. Now, I can view student progress across classrooms in one place"

"I thought adopting an edtech tool would be difficult, but the team at ASSISTments made it really easy to pick up with support from an ASSISTments expert"

Start measuring progress toward district achievement goals the easy way!
