ASSISTments TEACHER

Your **forever free** digital solution for assigning online – proven effective with a Tier 1 Rating from Evidence for ESSA

- Assign the **Practice Problems** for each lesson as in-class or at-home independent practice
- Foster math conversations around **Student Tasks** and common wrong answers found in the assignment report
- Finish each lesson by assigning a **Cool Down** and use the immediate data to help inform your instruction
- Assign your **Unit Assessments** to get quick data on whole class successes and challenges

Integrates with

Achieve School Wide Success With A Data-Driven Edtech Tool

ASSISTments ADVANTAGE

Administrators support growth in student achievement with actionable data. Teachers make instructional decisions with access to performance data and visualizations.

Insights Hub - A Quick Look into Student Learning

Instructional leaders have real-time access to teacher and student data in one place to easily monitor student progress and identify success across classrooms.

Instructional Support

Implementation Planning

and support connect learning goals with the OUR curriculum.

Professional Learning

enhances existing data practices to improve student achievement.

Coaching

helps you plan effective action steps for teacher support.

What others are saying about ASSISTments Advantage

"Before Insights Hub I had to open multiple tabs in an attempt to analyze student data. Now, I can view student progress across classrooms in one place"

"I thought adopting an edtech tool would be difficult, but the team at ASSISTments made it really easy to pick up with support from an ASSISTments expert"
