

# Call for Innovation

The WearTech Applied Research Center is seeking novel wearable solutions to address challenges and opportunities within the existing healthcare delivery system.

## Key Areas of Interest

Wearable solutions that improve patient access and remote monitoring to provide timely, personalized care. This may include but is not limited to the following:

- Monitoring of vital signs
- Early disease detection
- Improving patient adherence to treatment
- Injury prevention

## Eligible Teams

Teams will collaborate with universities, nonprofit business associations, health science research centers, institutes, or other technology businesses that operate in Arizona.

- Physicians
- Administrators or system leaders
- Technologists
