

# PHILANTHROPY CHALLENGE

## CATALOGUE

In junior geography, students study global environments (eg: rainforests, deserts, savannas), global change (eg: inequality, NGOs) and global issues (eg: threatened habitats, land degradation, overuse of ocean resources, urbanisation).

Teachers educate students as to the various responses that can be made by individuals, groups and governments to 'make a difference' in our global village.

Schools then use 'The Philanthropy Challenge' to bring to life the content in order to engage students, teachers, parents and the wider community in philanthropy.

The catalogue gives ideas as to what can be purchased with the funds. Students can combine funds with classmates.

At the end of the course, students choose their money destination & teachers organise the funds to be sent to the NGOs.

THANK YOU

**Chicken/Feed \$10** \*

**Duck \$15** \*

**School Stuff \$15** \*

**Fish Farm \$25** \*

**Goat \$40** \*

**Sport Stuff \$40** \*

**Seeds \$40** \*
