NURSING

☑ Must have negative hepatitis B and TB test prior to start

☑ Hold infusion and notify provider for:

- Signs/symptoms of infection or planned/recent surgery.
- recent live vaccines
- pregnancy or neurological symptoms.

☑ Monitor vital signs with every rate change, then every 30 minutes and prior to discharge.

☑ Patients on maintenance dosing who have not experienced a serious infusion reaction with any previous Ocrevus infusion may be eligible for an increased infusion rate. Reference quick notes for specifics on eligibility and dosing rate table.

☑ Provide nursing care per Nursing Procedure, including Hypersensitivity Reaction Management Protocol and post-procedure observation
