

AWC Meeting
December 6th, 2022
6:30-8:00pm

Decision Meeting Minutes:

Discussion Item: Restoration plan for creek below Mira Vista up to the railroad tracks

- The latest version of the Lower Alhambra Creek Watershed Management Plan (LACWMP) appears to have a sufficient restoration plan for this section of the creek.
- Mitch Avalon will contact Randy Leptien with the City of Martinez to receive an update on the status of the LACWMP and to see if it has been submitted to the Regional Water Quality Control Board (RWQCB).
- Once the Plan has been submitted to the RWQCB, Riley will be contacted again and asked if the restoration plan already described is sufficient and/or meets her expectations for her request to begin creating the restoration plan between Marina Vista and the railroad tracks.

Discussion Item: Developing Alternative Mitigation Systems (DAMS) for Beavers Act grant program

- Moving forward, find out if we have any beavers in the watershed.
- Once we confirm there are beavers in the watershed, we can evaluate if there is a project we can work on and apply for this DAMS grant program for.
- Victoria Woolfolk will contact Heidi Perryman to learn the status of beavers in the watershed.

Next meeting: Tuesday, January 3rd

- Note: The meeting agenda stated the next meeting is on January 2nd, it will actually occur on January 3rd.
