

Note for parents

As part of our PSHE programme, and as required in the Year 5 curriculum, the children have started a unit of work Titled 'Changing Me'. This topic focuses on how their bodies will change throughout puberty and adolescence. They will also be made aware of both the female and male reproductive systems. It concludes with a lesson on conception and the children will learn the science behind how babies are made. As I'm sure you are aware, this is a mature topic that the children have not experienced at school before. I think it is important that you are aware that we will be approaching these elements of the curriculum next week, and that your children may have some further questions for you at home.

If you have any questions regarding this unit of work, please don't hesitate to contact your child's class teacher.

Your task

We'd like you to reflect on this year at school using the sub-heading you can see in this example. You are free to set out your work however you please, an example is below:

School's Out for Summer

Think about the last year in school. Think about all the things you have learnt, activities you have completed, places you have visited and achievements you have accomplished. Fill in the boxes below.
