

LABS: the new one-stop shop future marketplace for your calibration needs.

Experience a new way of calibration services. Sign up to LABS!

WHAT'S IN IT FOR YOU?

Vendors at your doorstep

LABS gives you immediate access to KÖR's network of 3000 laboratories. With the already selected pool of vendors, your first step in the lab selection process is already done. Get matched with our diverse industrial partners (laboratories, universities, research institutions) who deliver you their best lab expertise. Get access to local and international laboratories, in order to get the best price, best turnover time, best experts, briefly the exact match for your needs.

Hassle-free calibration

Say goodbye to the hassle of finding and coordinating with multiple calibration service providers. With LABS you get access to a network of 3000 accredited calibration laboratories, making it easy to find the right calibration service for your needs.

Traceable track-record in the TIC service industry

KÖR history goes back in time 25+ years we are in the Calibration and TIC service industry since 1997.

Save on costs, time & energy.
