

# Top up with rainwise and save.

DEPEND ON  
**DAVEY**

WATER PRODUCTS

## Rainwise and Davey have partnered up to make pool top up easy.

The package includes:

- > Davey Rainbank® KRBX1
- > 2000 - 5000 litre water tank options
- > Automatic activation valve
- > Davey Acquasafe® 5L

As your pool water level drops, the system automatically sources rainwater when available, prioritising it over mains water. It then seamlessly switches over to mains when tank water is low. Davey Acquasafe breaks down into oxygen and water with no adverse effects on pool chemistry.

Clever, efficient and a system that never forgets.
