## Squares and Rectangles

### Surface & Suspended Wood Panels

---

High-performing, long-lasting acoustic solutions don't need to compromise attractive design. Our wood panels for walls and ceilings are beautifully simple, functional and easy to install. Perforated wood veneers offer exceptional acoustical performance when coupled with our fiberglass core.

#### Features

- We offer 3 standard veneers, but can offer up to 20+ premium veneers species.
- Wood veneer adhered to core using our patented VACU-BOND® process.
- Meticulously hand-crafted with and without edges wrapped.
- Custom designs can be developed based on specs (or an idea) through The Custom Shop.

# Square

Size	2' x 2', 4' x 4', 5' x 5'. Custom sizes available.
Thickness	1" or 2"
Tolerance	+/- 1/16"
Core	6-7lb Fiberglass Board
Edge Detail	Hardened
Edge Profile	Square
Mounting Type	Wall
Mounting Hardware	Impaler clips, Rotofast, Z Clips
Flamability	ASTM 84 Class A
NRC	1" = 0.80 and 2" = 1.00 - see brochure for details by size

## Our craftsmanship guarantee is really simple:

If there is a craftsmanship defect detected, we will repair or replace the impacted product.

If the product was damaged during shipping and it was because of how we packaged it, we will repair or replace the impacted product.

The length of our guarantee is five (5) years provided you used a Certified PRO Installer; otherwise, it is a standard three (3) years.

For more details, see warranty details on our website.

## Lead Time

**Standard sizes and coverings:** 2-3 weeks

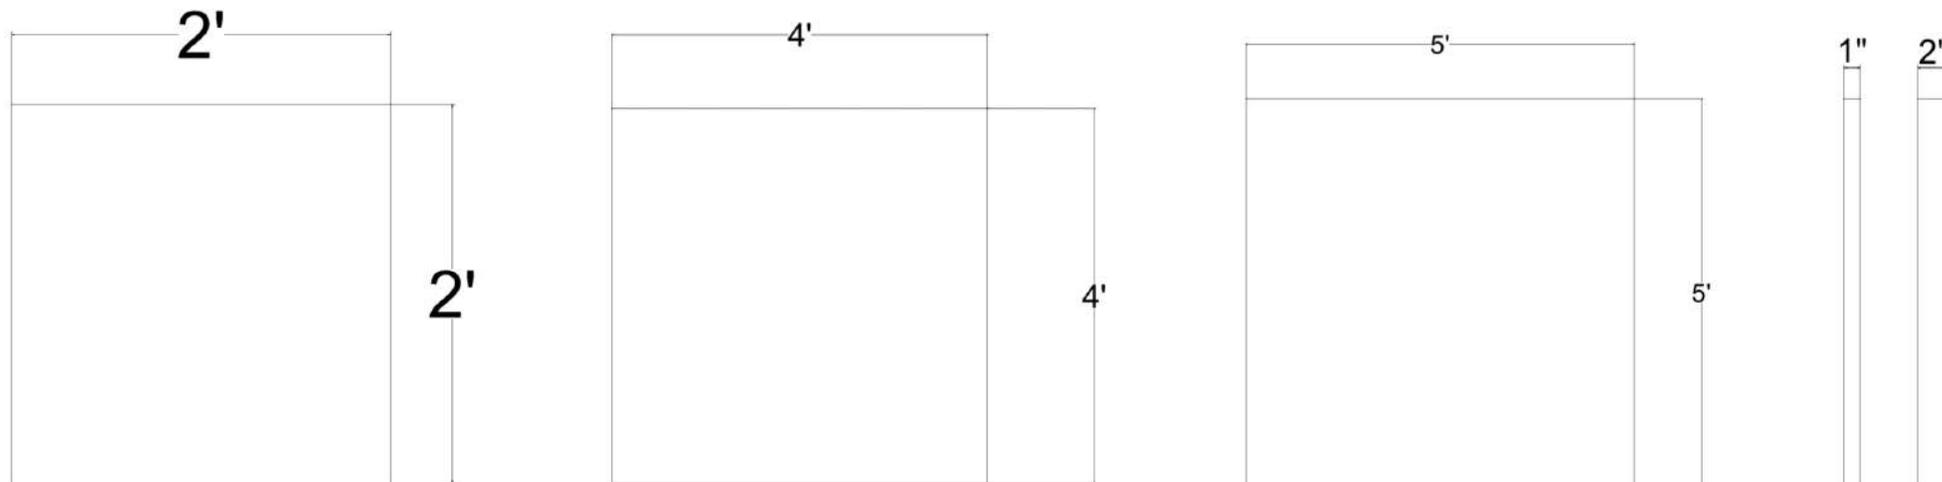

**Custom sizes and coverings:** 6-8 weeks

\* any customer supplied coverings may require additional time for delivery and testing. Additionally, wood veneers require perforation. Any wood veneers not in stock require an additional 4-6 weeks.

## Custom Shop

Need something unique? Want to co-create actionable solutions that improve the human experience? We believe, TOGETHER, we can ideate, design, and build solutions that create unique experiences. Call us to discuss our Custom Shop program.
