

# Prototype planning

## Worksheet

### Objectives

What do you want to find out about your idea?

### Assumptions

Write down the assumptions that you want test with your prototype:

### Set up the prototype

Sketch the activities that you want to test with your prototype. You can use an online drawing/visualisation tool like Miro or hand-draw and then take a picture of the sketch. You can make very simple drawings that describe what happens during testing and then place them here:
