CORPORATE OVERVIEW

Our mission is to help our customers achieve complete process automation, speed and manage their costs consistently through continuous innovation and rapid transformation. We strive to deliver custom world-class services, which are business driven, competitive and provide value to each of our customers. Established in the year 2004, PN Automation is a CMMIDEV /3 appraised firm that develops software and provides Information Technology (IT) solutions and has worked on 250+ different projects based on web, mobile, cloud, Data Warehousing, Content Management, Enterprise Resource Planning (ERP), Customer Relationship Management (CRM) and network applications. We are fully aware of our customer' budgeting and cost-cutting needs and we take pride in going the extra mile to deliver satisfactory results.
