FDA Food Allergen Labelling Checklist

Follow these steps to ensure your food labels are compliant with FDA regulations:

- [ ] Declare the allergen on the Principal Display Panel (PDP) or Information Panel (IP) on the food product.

- [ ] Include the food source of a major food allergen in parentheses following the ingredient's name. (OR)

- [ ] Use a "May Contains" statement immediately before or after the list of ingredients containing the allergens.

- [ ] Ensure that the type size of declaration is no less than 1/16".

- [ ] Avoid any obscuring vignettes, graphics, or printed information on the labels.

Forget your packaging and labelling worries
ComplyAI is here to save your day!

ComplyAI is an AI-led compliance tool by Artwork Flow that helps you effortlessly scrutinise your labels and packaging for correct grammar, fonts, logos, barcodes, and more parameters of your choosing in a flash. All you have to do is create some rules and let our AI engine work its magic. Book a demo today and say goodbye to your label management worries.

Raisins

Sugar

Cereal Ext

Net wt. 4.5lbs

Indulge in our carefully crafted premium muesli, blending the wholesome goodness of rolled oats, wheat, corn grit, raisins, sugar, and cereal extract. Sourced from quality farms, these ingredients ensure a rich and nutritious breakfast experience. The rolled oats provide a hearty base, offering essential fibers, while wheat and corn grit add texture and depth. Raisins and sugar contribute to a delightful sweetness, creating a well-balanced flavor profile. Every batch undergoes meticulous processing to preserve the integrity of the quality ingredients.
