

ENVIRONMENTAL CHARTER

- HOTEL LOUISON -

According to Ecolabel Charter, the Louison commits itself to an eco-responsible policy to reduce its impact on the environment by applying the following actions.

WATER, LET'S PRESERVE IT

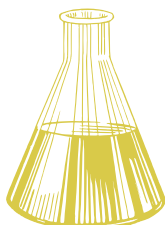

- by changing the bathroom towels only if you require us to
- by reducing the water's consumption thanks to the use of dry steam
- by inserting water's regulators on all the taps

ENERGY, LET'S RENEW IT

- by using 100% LED bulbs
- by compensating 100% electricity in renewable energies
- by negating gaz consumption thanks to the purchase of "carbon credits"
- by switching off the outdoor lights during the night
- by giving 1€ to renewable energy research for every electricity kWh consumed
- by lighting the corridors thanks to presence detectors
- by isolating your rooms thanks to double glazing and thus, get a moderate use of heating

CHEMICAL PRODUCTS, LET'S BAN THEM

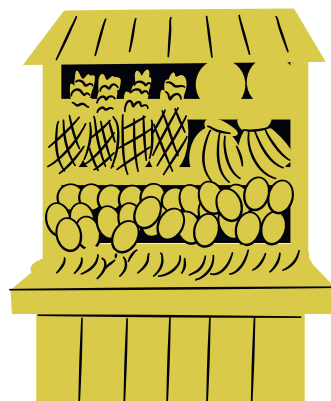

- by using ecolabel laundry
- by replacing the cleaning products with dry steam and ozonated water

PRODUCERS, LET'S SELECT THEM

- by choosing French labels
- by picking local products, as the bread from the neighborhood's bakery
- by using laundry certified as Fairtrade

WASTE, LET'S REDUCE IT

- by removing individual packages, notably by implementing big soap dispensers
- by recycling bulbs, batteries, ink cartridges, obsolete furniture and objects
- by establishing served breakfast menus instead of a buffet in order to reduce any waste
- by separating them : thanks to 2 different garbages in your rooms and different hotel's containers

Now, key is ours : together, let's adopt the right behavior for a healthier planet !
