

# Little Green Rabbit allergen labeling

The Little Green Rabbit allergen overview provides information about which allergens are included the meals we serve. In addition, any undesirable ingredients such as garlic and onions are also marked. It is also clear whether the products are vegetarian or vegan.

The list of allergens refers to the 14 main triggers of allergic food reactions. They are listed if the above-mentioned ingredients are contained in the final foodstuff. Both in the production and in the preparation of our products, ingredients are processed that may contain the 14 main allergens.

### Labeled allergens:

Edible nuts and products thereof:  - Almond (N1) - HazeInut (N2) - Walnut (N3) - Cashew (N4) - Pecan nut (N5) - Brazil nut (N6) - Pistachio (N7) - Macadamia nut (N8)
cof Celery and products thereof
eof Mustard and products thereof
Sesame and products thereof
Lupines and products thereof
eof Molluscs and products thereof
Solfur dioxide and sulphites > 10 mg/kg or 10 mg/l
- Cashew (N4) - Pecan nut (N5) - Brazil nut (N6) - Pistachio (N7) - Macadamia nut (N8)  Celery and products thereof  Mustard and products thereof  Sesame and products thereof  Lupines and products thereof  Molluscs and products thereof  Sulfur dioxide and sulphites

#### "Cross contacts"

Allergen labelling only refers to ingredients that have been intentionally used in food production.

We cannot completely rule out unintentional and technically unavoidable contamination of products that do not contain this allergen as an ingredient. The so-called cross-contaminations by our suppliers are not listed in the table.
