Maples

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Metro Gold® Maple *Acer campestre 'Panacek'*

The Metro Gold® Maple is an upright, narrow oval cultivar that has a tighter shape than other species. It is an excellent street tree that has earned a reputation as a tough city tree. Medium growth rate.

Zone: 5 | Height: 35 Feet | Spread: 20 Feet
| Yellow Fall Color | Hardy

B. Tamukeyama Japanese Maple

Acer palmatum dissectum
'Tamukeyama'

The Tamukeyama Japanese Maple is a red lace leaf Japanese maple. It has a rounded to broad shape with low branching. It does well in full sun to part shade.

Zone: 5 | Height: 8 Feet | Spread: 12 Feet
| Red Fall Color | Colored Foliage

-- Beautiful Japanese Maples --

C. Japanese Maple 'Emperor I' *Acer palmatum*

The Emperor 1 Japanese Maple is a upright tree that becomes broader with age. It has rich red foliage that retains its color better during the summer, is fast growing and heat resistant. Medium growth rate.

Zone: 5 | Height: 15 Feet | Spread: 15 Feet | Red Fall Color | Colored Foliage

D. Bloodgood Japanese Maple *Acer palmatum 'Bloodgood'*

The Bloodgood Japanese Maple is a beautiful purple leafed tree. Growing in an upright shape and becoming broad at the top with age. This is a widely used tree, well known for its shape, color and reliability. Medium growth rate.

Zone: 5 | Height: 18 Feet | Spread: 18 Feet | Red Fall Color | Colored Foliage

Maples

A. Conquest Norway Maple *Acer platanoides 'Conzam'*

The Conquest Maple is a narrowly oval shaped tree with reddish-purple foliage. It is ideal for use as a street tree. Medium growth rate.

Zone: 4 | Height: 40 Feet | Spread: 20 Feet | Bronze-Orange Fall Color | Colored Foliage

B. Crimson King Norway Maple *Acer platanoides 'Crimson King'*

The Crimson King is the most popular red-leafed Norway. It has a rounded shape and is a relatively slow grower that tolerates hot, dry conditions and polluted air. Slow growth rate.

Zone: 4 | Height: 40 Feet | Spread: 35 Feet | Bronze Fall Color | Colored Foliage

C. Crimson Sentry Norway Maple *Acer platanoides 'Crimson Sentry'*

The Crimson Sentry Maple has purple foliage similar to that of the Crimson King, but is much smaller and pyramidal to oval in shape making it ideal for tight locations and urban landscapes. Slow growth rate.

Zone: 4 | Height: 25 Feet | Spread: 15 Feet | Bronze Fall Color | Colored Foliage

D. Royal Red Maple *Acer platanoides 'Royal Red'*

The Royal Red Maple is similar to the 'Crimson King', but with better color and hardiness. It has glossy dark purple foliage that will retain its color well throughout the year. Medium growth rate.

Zone: 4 | Height: 40 Feet | Spread: 30 Feet | Red-Bronze Fall Color | Colored Foliage

There is nothing like fall color.

Maples

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

B.

A. Autumn Radiance Maple

Acer rubrum 'Autumn Radiance'

The Autumn Radiance Maple has an open rounded shape with beautiful green foliage throughout the summer. It turns red early in the fall. Medium growth rate.

Zone: 4 | Height: 50 Feet | Spread: 40 Feet | Red Fall Color | Early Fall Color

B. Bowhall Maple

Acer rubrum 'Bowhall'

The Bowhall Maple has an upright and narrow form. Slow growth rate.

Zone: 4 | Height: 40 Feet | Spread: 15 Feet | Yellow-orange Fall Color

C. Armstrong Gold Maple

Acer rubrum 'JFS-KW78' PP 25301

The Armstrong Gold Maple is a fast growing columnar tree with green foliage. Ideal for street plantings where space demands a tree which will not spread.

Zone: 4 | Height: 45 Feet | Spread: 15 Feet | Yellow-orange-red Fall Color | Columnar

C.

D.

D.

A.

D. Burgundy Belle® Red Maple

Acer rubrum 'Magnificent Magenta'

The Burgundy Belle® Red Maple is a great shade tree with symmetrical branching habitat. It can tolerate harsh climates.

Zone: 5 | Height: 45 Feet | Spread: 15 Feet | Orange-Red-Burgandy Fall Color | Long lasting fall color

*A good shade tree makes a yard ...
and the many memories spent enjoying its shade
and celebrating life's little moments.*

Maples

A. Red Rocket Maple

Acer rubrum 'Red Rocket'

Red Rocket Maple is the perfect red maple for those small areas that need fiery red fall color. Its reduced size and tight upright habit make this tree a perfect choice for tight urban areas.

Zone: 3 | Height: 38 Feet | Spread: 15 Feet | Red Fall Color | Columnar

B. Somerset Red Maple

Acer rubrum 'Somerset'

The Somerset Red Maple is a very popular shade tree because it grows quickly with a strong, upright grow habit and a uniform crown.

Zone: 4 | Height: 40 Feet | Spread: 25 Feet | Red Fall Color | Fast growing

C. Sun Valley Maple

Acer rubrum 'Sun Valley'

The Sun Valley Maple is oval and densely branched. Bark is light gray and smooth when young, turning dark gray with age.

Zone: 5 | Height: 40 Feet | Spread: 35 Feet | Red Fall Color | Interesting Bark

Maples

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Brandywine Red Maple *Acer rubrum 'Brandywine'*

Brandywine Red Maple is a seedless variety with an oval shape.

Zone: 4 | Height: 40 Feet | Spread: 30 Feet | Dark Red Fall Color | Late turning fall color

B. Redpointe® Maple *Acer rubrum 'Frank Jr.' P.A.F.*

The Redpointe® Maple's broadly pyramidal form makes it a standout. Its straight and dominant central leader results in strong branch angles that make it easier to grow. Fast growth rate.

Zone: 5 | Height: 45 Feet | Spread: 30 Feet | Red Fall Color | Fast Growing

C. Red Sunset® Maple *Acer rubrum 'Franksred®'*

The Red Sunset® Maple is a vigorous-growing oval shaped tree. It is one of the most popular varieties due to its uniform shape. A great tree for landscaping. Fast growth rate.

Zone: 4 | Height: 45 Feet | Spread: 35 Feet | Red Fall Color | Fast Growing

Redpointe[®] Maple

What we love about the Redpointe® Maple.

Autumn beckons for change as humans layer up for warmth, birds quell their singing, and trees don generous flamboyant fall colors. Not to be outdone, the Redpointe® Maple graces the scene, like a bright flame juxtaposed against the greying skyline. Beauty and unique character paired with ease of culture make the Redpointe® Maple an easy addition to the fall landscape.

Here are a few things that we love about the Redpointe® Maple.

Splendor and Poise

Uniform growth throughout multiple seasons reduces pruning and maintenance requirements and also maintaining an attractive aesthetic. This tree holds a classic teardrop shape with natural branch angles and symmetrical canopy development. Leaves maintain a fresh, deep-green color throughout the summer, even throughout the heat. Smaller and pest tolerant leaves reliably deliver stunning, deep red colors in the fall.

Redpointe Maples at Garden Gate.

The Redpointe® Maple is tolerant of higher pH soils and will provide dazzling fall colors earlier than other trees. Many maples are grown in areas with a high soil pH, which often encourages leaf chlorosis, especially during the warmer summer months. This variety of North American adapted species has been improved to resist yellowing and chlorosis, as well as anthracnose, spider mites, and leafhoppers.

This adaptability to a variety of local climates and soil types is one of the strengths of this tree. It persistently insists on providing the earliest, brightest, and highest quality color that adds a wonderful aesthetic to any landscape.

Ease of Culture

Vigorous and symmetrical canopy growth keeps fresh all summer long. With a six-foot clearance from the ground at maturity, expect a total of 45 feet in height, spreading about 30 feet wide. Lower branches can be pruned to allow for higher clearance. This fast growing tree should be pruned only after leaves have fully developed in the summer, and can live for over 80 years.

Colorful red branches and silvery bark add accents, especially at the emergence of eye-catching red flowers in the early spring. For vigorous growth, plant this tree in full sunlight as an accent or shade tree. One of the benefits of the Redpointe maple is its adaptability, which allows it to be successful in average to wet conditions, and even tolerating moderate standing water.

Made for the Urban Landscape

Shallow roots are adaptable to a variety of soil conditions, making the Redpointe maple a win for the urban landscape. Straight upright growth does not threaten to obstruct urban activities, and sturdy branches are attractive from all angles. Landscapers and

homeowners can revel in the consistency and reliability in shape as well as low maintenance needs.

When spring leaves emerge for a dazzling display, trees contribute to the visual and physical aesthetics of the landscape. Female blossoms do not release pollen, which is a welcome relief for those who suffer from allergies. Paired with a high tolerance for urban pollution, this tree is a net positive for air quality.

With so many features to love, there is so much to admire about the Redpointe® Maple. Vibrant colors, ease of culture, and consistency for years to come, this tree is a wonderful addition to any skyline.

Maples

A.

A. Flashfire® Maple

Acer saccharum 'JFS-Caddo2' PP23361

The Flashfire® Maple is a hardy tree and has strong mildew resistance.

Zone: 4 | Height: 45 Feet | Spread: 40 Feet
| Red Fall Color | Early Fall Color

B. Urban Sunset®

Acer truncatum × *platanoides* 'JFS-KW-187'

The Urban Sunset® is a easy to grow compact and upright tree. It is hardy to cold temperatures.

Zone: 4 | Height: 35 Feet | Spread: 20 Feet
| Red Fall Color | Easy to grow

C. Crimson Sunset® Maple

Acer truncatum x *Acer platanoides* 'JFS-KW202' PP21838

The Crimson Sunset® Maple has a compact oval head. Good heat resistant.

Zone: 4 | Height: 35 Feet | Spread: 25 Feet
| Maroon-bronze Fall Color | Colored Foliage

D. Pacific Sunset® Maple

Acer truncatum X *Acer platanoides* 'Warrenred'

The Pacific Sunset® Maple has adaptability to resist heat and drought. Adaptable to varied growing conditions.

Zone: 4 | Height: 30 Feet | Spread: 25 Feet
| Orange Fall Color | Hardy

Maples & Serviceberry

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Autumn Fantasy® Maple

Acer x freemanii 'Autumn Fantasy'

The Autumn Fantasy® Maple has brilliant, long lasting fall color and will tolerate wet soils with good drainage. This is a fast growing shade tree.

Zone: 4 | Height: 50 Feet | Spread: 40 Feet | Ruby-Red Fall Color | Long lasting fall color

B. Celebration® Maple p.p.7279

Acer x freemanii 'Celzam'

The Celebration® Maple has a very dense, tight growth habit and is seedless. Fast growth rate.

Zone: 4 | Height: 50 Feet | Spread: 35 Feet | Yellow-orange Fall Color | Hardy

C. Autumn Blaze® Maple p.p.4864

Acer x freemanii 'Jeffersred'

The Autumn Blaze Maple is fast growing oval shaped tree that is resistance to drought and cold weather. Fast growth rate.

Zone: 3 | Height: 50 Feet | Spread: 40 Feet | Orange-Red Fall Color | Hardy

D. Autumn Brilliance Apple Serviceberry

Amelanchier x graniflora

The Autumn Brilliance Serviceberry is a small upright spreading tree with white flowers in the spring. It has silver gray bark. Fast growth rate.

Zone: 4 | Height: 20 Feet | Spread: 15 Feet | White Bloom | Red Fall Color | Fast growing

Birch

A. Jacquemontii Birch *Betula 'Jacquemontii'*

The Jacquemontii Birch is a vigorous grower that is upright and oval in shape. It is the whitest of the white bark birches. It shows some resistance to the birch leafminer.

Zone: 5 | Height: 40 Feet | Spread: 30 Feet | Yellow Fall Color | White Bark

B. Royal Frost Birch *Betula penci-2*

The Royal Frost Birch has a purple-bronze foliage and lightly weeping growth shape. Slow growth rate.

Zone: 4 | Height: 40 Feet | Spread: 25 Feet | Yellow-orange Fall Color | Colored Foliage

C. Heritage Birch *Betula nigra*

The Heritage Birch has lighter colored bark and large, glossy, light green leaves. The peeling bark exposes mottled patches of cream, orange, and pinkish tan colors. Fast growth rate.

Zone: 4 | Height: 40 Feet | Spread: 30 Feet | Yellow Fall Color | Interesting Bark

D. Dakota Pinnacle Birch *Betula platyphylla 'Fargo'*

Dakota Pinnacle is a hardy columnar birch. Its bark is yellow white in color and is slightly exfoliating. It is also heat and drought tolerant. Fast growth rate.

Zone: 3 | Height: 40 Feet | Spread: 15 Feet | Yellow Fall Color | Hardy, Interesting Bark

Cuteness Overload...

Hornbeam & Cedar

A. **Pyramidal European Hornbeam**

Carpinus Betulus 'Fastigiata'

The Pyramidal European Hornbeam is an attractive, columnar tree with dense branches when young, that spread into a broad cone shape with age. Slow growth rate.

Zone: 5 | Height: 35 Feet | Spread: 25 Feet | Yellow-Orange Fall Color | Hardy

B. **American Hornbeam**

Carpinus caroliniana

The American Hornbeam has an oval shaped canopy with dark green foliage that turns to a yellow to bright orange-red in the fall. It has a tight gray, irregular bark that that resembles muscles. Slow growth rate.

Zone: 4 | Height: 25 Feet | Spread: 20 Feet | Orange to Red Fall Color | Hardy

C. **Blue Atlas Cedar**

Cedrus atlantica glauca

The Blue Atlas Cedar is a stiff upright tree with a beautiful blue foliage. It is one of the most cold hardy of the true Cedars and is also drought tolerant. Fast growth rate.

Zone: 6 | Height: 60 Feet | Spread: 35 Feet | Evergreen

D. **Deodar Cedar**

Cedrus deodara

The Deodar Cedar is a large graceful conifer that has a pyramidal shape and light green needles. Its branches grow horizontally and droop at the tips. It is a vigorous grower that requires some space but makes an elegant statement in the landscape.

Zone: 6 | Height: 50 Feet | Spread: 20 Feet | Evergreen

Our focus at Garden Gate Nursery is to provide our customers with high-quality shade and ornamental wholesale trees.

Katsura & Redbuds

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Katsura Tree

Cercidiphyllum japonicum

The Katsura Tree has an upright oval shape that matures to a round crown. It has delicate heart shaped foliage that emerges reddish-purple, changes to green and then to fall color. Fast growth rate.

Zone: 5 | Height: 40 Feet | Spread: 40 Feet | Yellow-Orange Fall Color | Changing foliage color

B. Lavender Twist® Redbud p.p 10328

Cercis canadensis 'Covey™'

The Lavender Twist® Redbud is a small weeping ornamental with an interesting habit. It has deep pink blooms in spring and its lattice-like structure provides winter interest.

Zone: 5 | Height: 8 Feet | Spread: 8 Feet | Deep Pink Bloom | Yellow Fall Color | Weeping

C. Eastern Redbud Tree

Cercis Canadensis

The Eastern Redbud tree has showy deep pink blossoms that cover the tree in early spring. As the tree becomes older its bark becomes dark and then the flowers seem to glow. Its beautiful heart shaped leaves emerge as purple and change to dark green in summer. Slow to medium growth rate.

Zone: 5 | Height: 25 Feet | Spread: 30 Feet | Pink Bloom | Yellow Fall Color | Changing foliage color

D. Avondale Chinese Redbud

Cercis chinensis 'Avondale'

The Avondale redbud tree is covered with densely-clustered flowers that arise before the heart-shaped, glossy, green leaves appear.

Zone: 5 | Height: 12 Feet | Spread: 10 Feet | Rose-Purple Bloom | Orange-Yellow Fall Color | Heart Shaped Leaves

Beautiful Blooms

Cedars

A. Narrow Yellow Alaskan Cedar

Chamaecyparis nootkatensis 'Van den Akker'

The Narrow Alaskan yellow cedar is a pillar-like spire rising up in the garden with side branches that weep down and hug the main trunk. It is extremely useful for small gardens or tight spaces.

Zone: 4 | Height: 30 Feet | Spread: 5 Feet
| Evergreen

B. Slender Hinoki False Cypress

Chamaecyparis obtusa 'Gracilis'

The Slender Hinoki Cypress is an open-branched, narrow, upright growing evergreen tree. It has tiny, deep green needles with reddish new growth and bronze coloring in the winter.

Zone: 4 | Height: 15 Feet | Spread: 5 Feet
| Bronze Fall Color | Evergreen

C. Weeping Alaskan Cedar Blue

Chamaecyparis nootkatensis 'Glauc Pendula'

The Blue Weeping Alaskan Cedar is a tall narrow form with blue-green foliage and a graceful habit. Its pyramidal shape and weeping branches make it ideal for the landscape. It prefers full sun and good drainage.

Zone: 4 | Height: 30 Feet | Spread: 15 Feet | Evergreen

D. Stricta Weeping Alaskan Cedar

Chamaecyparis nootkatensis 'Stricta'

The beautiful Stricta Weeping Alaskan Cedar has long drooping branches that drape from spreading and upcurved branches. Stake when young. Great for needing height in narrow spaces.

Zone: 5 | Height: 25 Feet | Spread: 6 Feet | Evergreen

June Snow™ Dogwood

The June Snow Dogwood (*Cornus Controversa* 'June Snow-JFS') is an incredible ornamental variety that quickly made it to our list of favorite trees this year when we started growing it for the first time. From a fast growth rate to its flowers, this tree is quite different than its Dogwood family members.

It is a fast growing tree. If you are familiar with Dogwoods, then you know that most trees in this family are not fast growers. In fact, I would go as far to say that 90% of Dogwood trees sold in nurseries are slow growing trees, especially *Cornus florida* and *Cornus kousa* varieties. So that is why this characteristic is so special. This tree is a fast-growing Dogwood and will reach its mature size of 30 feet in height and 40 feet in diameter in under 30 years. By the time it has left our farm it will have 5-7 years under its belt so you will be able to count on having a semi-mature tree 5 years after planting.

The June Snow has a unique growth shape. Another feature of this tree that really makes it special is its growth shape. The tree takes on a wide-spreading form and provides lots of shade while staying low enough to be in the medium category of size. This makes the tree a great fit in urban landscapes and locations where height can be an issue.

The tree is hardy. The June Snow Dogwood is categorized in Zone 5 and is popular in areas of hot summers and cold winters.

June Snow's show off in the fall. Although this is not entirely unique to Dogwoods, this is still a great feature of the tree. "Dark green summer foliage gives way to mottled fall tones of orange-yellow, red, purple and purple-red. Abundant clusters of blue-black, 1/4-inch fruits also create seasonal interest and attract birds to the garden." - JFS

We all love birds and it is great to have some trees in the landscape to naturally keep birds near and in our landscapes during the cloudy fall days. You never know when you might want to hear the singing out your window.

The June Snow has amazing white flower clusters. In May, this tree shows off its incredible flowers. The flowers of this tree are unlike traditional *Cornus* flowers in the fact that they show themselves off more as a cluster of small white flowers. Many Dogwood varieties have large white and pink flowers, but this tree has large, unique clusters of small star shaped flowers.

Dogwoods

A. Aurora Dogwood

Cornus x 'Rutgan'

The Aurora Dogwood has large, overlapping white flower blooms with a velvety texture that almost cover the foliage of this small tree in early spring. It is exceptionally disease and borer resistant.

Zone: 5 | Height: 20 Feet | Spread: 20 Feet | White Bloom | Red Fall Color | Hardy

B. June Snow™ Dogwood

Cornus controversa 'June Snow'-JFS

The June Snow Dogwood's branches are covered with clusters of frothy white flowers in spring.

Zone: 5 | Height: 30 Feet | Spread: 40 Feet | White Bloom | Orange-red-purple Fall Color | Showy

C. Eddie's White Wonder Dogwood

Cornus florida 'Eddie's White Wonder'

Eddie's White Wonder has an upright, pyramidal form with slightly pendulous branches. It has beautiful large white bracts in the spring, dark green foliage fall color. It is a full year of beauty.

Zone: 6 | Height: 25 Feet | Spread: 20 Feet | White Bloom | Red Fall Color | Slightly weeping

D. Cherokee Brave Dogwood

Cornus florida

The Cherokee Brave Dogwood has giant deep pink blooms with white tips on the bloom. It is noted for its resistance to disease. Slow growth rate.

Zone: 5 | Height: 25 Feet | Spread: 20 Feet | Pink Bloom | Maroon Fall Color | Hardy

E. Stellar Pink Dogwood

Cornus x 'Rutgan'

Stellar Pink Dogwood has upright and slightly spreading branching. It is disease resistant to anthracnose and powdery mildew.

Zone: 5 | Height: 25 Feet | Spread: 20 Feet | Light Pink Bloom | Red Fall Color | Hardy

www.gardengatetrees.com

Paul's Scarlet Hawthorn

The secret is out, Paul's Scarlet Hawthorn is this year's darling. Otherwise known as *Crataegus laevigata* 'Pauls Scarlet', our new favorite tree delivers rosy blooms and seasonally adorable ornamental fruit. Dark pink blossoms resembling tiny roses burst in a dazzling display throughout the spring.

Paul's Scarlet Hawthorn is the showiest hawthorn, and it's hard not to fall in love. Miniature rose clusters delicately perch on branches like nature's jewels. Cherry red fruits are soon to follow, persisting into the winter season, even after leaves have long flown the coop.

Miniature is the Perfect Size

With a spread of 15-20 feet and topping out in height at 25 feet, Pauls Scarlet Hawthorn is well suited to livening up the party as a wall of color in the backyard or brightening up the front as a single accent. Miniature flowers are fragrant, and the overall small size allows for easy maintenance.

Minimal pruning requirements are easy to perform on their low, dense branches, making this reliable talking piece a breeze to maintain. Leaves are quick to drop in the fall, especially in areas with cooler temperatures. Like a curtain dropping to reveal the star of the show, lobed and glossy leaves make way for festive, deep red fruits.

Adaptable and Easy

This tree is tolerant of a wide range of soil and climate conditions, so there is really no excuse not to squeeze in at least one Paul's Scarlet Hawthorn. While well-drained soils are

best, and this highly adaptable tree thrives in humid conditions as well as semi-arid areas.

Plant Paul's Scarlet Hawthorn at any time of the year, and prune any time after flowering in the summer or autumn to maintain the desired shape. Both sunny and partial shade conditions allow for vigorous growth, with most exciting developments occurring in the spring and autumn. Achieve true curbside appeal by trimming lower branches to heighten canopy-starting point and allow for traffic underneath.

A Jewel in the Rough

Shiny green foliage provides the perfect backdrop for cute and plentiful miniature roses. A deer-resistant trunk brings these adorable delights up to eye level while allowing for bird-friendly visitation. As a close relative to more commonly known roses, some trees have thorns, so keep this in mind when selecting the tree that best fits its function.

Some disease susceptibility in certain climates may cause leaves to drop earlier than unaffected trees, but caretakers can easily prune back affected branches. Dense hedgerows of Pauls Scarlet Hawthorn are common in the UK, so prune to fit any border for a more European feel. However, these trees do mature in a more rounded form, so keeping an attractive shape is still easy when pruning efforts fall by the wayside.

Brighten up any space, small or large, with the rosy Paul's Scarlet Hawthorn. With stress-free maintenance and doubled flowers that guests will coo over, it's an easy pick for this year.

Hawthorn, Beech & Ash

-- Variegated Foliage --

A. Paul's Scarlet Hawthorn

Crataegus laevigata 'Paul's Scarlet'

Paul's Scarlet Hawthorn is a dense oval tree with small, green, deeply lobed foliage. It produces a double flower that is a beautiful scarlet to rose.

Zone: 4 | Height: 22 Feet | Spread: 20 Feet | Scarlet Bloom | Orange-red Fall Color | Seasonal Interest

B. Dawyck Purple Beech *Fagus sylvatica* 'Dawyck Purple'

The Dawyck Purple Beech is a very narrow columnar tree. It has a purple foliage that holds its color in the summer.

Zone: 5 | Height: 45 Feet | Spread: 15 Feet | Orange Fall Color | Colored Foliage

www.gardengatetrees.com

C. Tricolor Beech

Fagus sylvatica 'Roseomarginata'

The Tricolor Beech is known for its beautiful variegated foliage, of purple with a rose-pink and cream margin. Slow growth rate.

Zone: 5 | Height: 30 Feet | Spread: 20 Feet | Orange-bronze Fall Color | Variegated foliage

D. Autumn Purple® White Ash

Fraxinus americana 'Junginger'

The Autumn Purple® White Ash is a large tree with a rounded shape. It is a fast grower that thrives in full sun and tolerates cold.

Zone: 3 | Height: 50 Feet | Spread: 30 Feet | Yellow and purple Fall Color | Early Fall Color

Ginkgo & Honeylocust

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Princeton Sentry®

Ginkgo

Ginkgo biloba 'Princeton Sentry'

The Princeton Sentry® Ginkgo has an upright, narrow form and is seedless. The tree is easily transplanted. Slow growth rate.

Zone: 4 | Height: 40 Feet | Spread: 15 Feet | Yellow Fall Color | Easily transplanted

A.

B. Halka™

Honeylocust

Gleditsia triacanthos 'Christie'

The Halka™ is a vigorous growing locust tree. It has a green summer color.

Zone: 4 | Height: 40 Feet | Spread: 40 Feet | Yellow Fall Color | Fast growing

C. Imperial®

Honeylocust

Gleditsia triacanthos inermis 'Impcole'

The Imperial® Honeylocust has a rounded head with fine textured leaves. Its wide branch angles resist storm damage and give it a wide stance. It grows well in full sun and is thornless. Fast growth rate.

Zone: 4 | Height: 35 Feet | Spread: 35 Feet | Yellow Fall Color | Resists storm damage

C.

E.

D.

D. Skyline® Honeylocust p.p.1619

Gleditsia triacanthos inermis 'Skycole'

The Skyline® Honeylocust is the most popular honeylocust. It is hardy and tolerates heat and wind. Its pyramidal shape makes it an ideal street tree. Fast growth rate.

Zone: 4 | Height: 40 Feet | Spread: 30 Feet | Yellow Fall Color | Hardy

E. Sunburst® Honeylocust

Gleditsia triacanthos inermis 'Suncole'

The Sunburst® Honeylocust has an irregular crown with sunny yellow foliage in the spring. It has small compound leaves, is seedless and tolerant of air pollution and hot, dry conditions. Fast growth rate.

Zone: 4 | Height: 40 Feet | Spread: 35 Feet | Yellow Fall Color | Hardy

Junipers & Sweetgum

A. Espresso Kentucky Coffee Tree

Gymnocladus dioica 'Espresso-JFS'

The Espresso Kentucky Coffee Tree has an oval to vase shape, with upright branches similar to an elm. It has blueish-green foliage. Heat, drought, cold tolerant.

Zone: 4 | Height: 50 Feet | Spread: 35 Feet | Yellow Fall Color | Hardy

B. Skyrocket Junipers

Juniperus virginiana 'Skyrocket'

The Skyrocket Juniper is a very narrow form with blue foliage and a small stature. It is hardy and maintains its shape. It is good in tight landscapes where space is a premium. Fast growth rate.

Zone: 4 | Height: 15 Feet | Spread: 3 Feet | Evergreen

C. Worplesdon Sweetgum

Liquidambar styraciflua 'Worplesdon'

The Worplesdon Sweetgum is broadly, pyramidal in shape with smooth bark. It is tolerant of cold weather

Zone: 6 | Height: 40 Feet | Spread: 25 Feet | Red Fall Color | Hardy

D. Emerald City Tulip Tree

Liriodendron tulipifera 'JFS-Oz'

The Emerald City Tulip Tree has an upright, oval shape with deep green glossy foliage and yellow tulip shaped flowers. Fast growth rate.

Zone: 5 | Height: 55 Feet | Spread: 25 Feet | Yellow Bloom | Yellow Fall Color | Fast growing

The Tulip Tree has a beautiful, unique blossom.

Emerald City® Tulip Tree

There are a few trees we absolutely love, and one that made it to the top of our list this year is the Liriodendron tulipifera 'JFS-Oz' Emerald City® Tulip Tree. As the name implies, this tree comes from the native Tulip tree family but has been selected for some of its unique characteristics.

What is unique about this tree?

Below are some of the most attractive traits of this tree that we really think makes the Emerald City Tulip stand out.

A Beautiful Form

The Emerald City® Tulip Tree sets itself apart from other varieties of trees for its beautiful, upright oval shape. This tree should not require much maintenance or pruning after being planted in your landscape. It grows upright and uniformly with even branching throughout the canopy. This tree grows with a straighter trunk than the native tulip tree and has nice, slightly compact shape.

Deep Green Foliage

The Emerald City® Tulip Tree has a deeper green color in its leaves than most native tulip varieties, but still sports the unique leaf shape of Tulip Tree leaves. The leaves have a nice glossy cover on their leaves which reflect with the sun and breeze creating a peaceful canopy in the backyard of your landscape during the summertime.

Blossoms in June

The Emerald City is really unique because of its blossoms in June. Medium sized yellow flowers will dot the canopy at the beginning of summer, bringing some blossoms into your yard during summertime.

These flowers are quite unique as you can see:

Emerald City® Tulip Tree flowers as seen at Garden Gate.
Faster Growing Variety

Although this tree cannot be compared to the Exclamation!™ London Planetree in growth rate, it still is faster growing than some shade varieties.

A Display of Yellow in Autumn

Not only does this tree have a great shape, beautiful foliage, and flowers, it also displays a wonderful color of yellow during the Autumn months. If your landscape has some red and orange coloring trees during the fall, like varieties of Oaks and Maples, then you may want to place some Emerald City® Tulip Trees throughout the landscape to show contrast throughout the canopies and bring out the red colors more.

Its mature size is a height of 55 feet and gets to be 25 feet in diameter.

Might be a great tree to add to your next landscape project?

Crabapples

C.

A. Show Time™ Crabapple *Malus 'Shotizam'*

The Showtime™ Crabapple has bright fuchsia red flowers in the spring followed by beautiful wine tinted foliage.

Zone: 3 | Height: 15 Feet | Spread: 15 Feet
| Fuchsia Bloom | Yellow Fall Color | Showy

B. Thunderchild Crabapple *Malus 'Thunderchild'*

The Thunderchild has an upright, spreading growth habit with beautiful, single, delicate pink flowers in spring. Foliage is deep purple.

Redwood & Cork Tree

A. Dawn Redwood

Metasequoia glyptostroboides

The Dawn Redwood is a fast growing conifer. Light green summer appearance. Deciduous character allows winter sun to penetrate.

Zone: 5 | Height: 70 Feet | Spread: 25 Feet | Orange-Red Fall Color | Deciduous

B. Eye Stopper Cork Tree

Phellodendron lavallei 'Longenecker'

The Eye Stopper Cork Tree is upright and spreading with a rounded crown.

Zone: 4 | Height: 40 Feet | Spread: 35 Feet | Yellow Fall Color | Bright fall color

Collecting fall leaves at the nursery is a favorite with so many varieties.

Spruce

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Columnar Norway Spruce *Picea abies 'Cupressina'*

The Columnar Norway Spruce is a hardy, columnar tree with ascending branches and deep green foliage. Its tight pyramidal shape and branching to the ground make it an excellent choice for screening.

Zone: 2 | Height: 20 Feet | Spread: 6 Feet
| Evergreen

B. Little Gem Norway Spruce *Picea abies 'Little Gem'*

The Little Gem Norway Spruce grows in a very tight round ball with short dark green needles. Its small stature makes it perfect for the landscape or in rock gardens. It requires little pruning and is slow growing.

Zone: 3 | Height: 3 Feet | Spread: 3 Feet
| Evergreen

C. Weeping Norway Spruce *Picea abies pendula*

The Weeping Norway Spruce is a slow grower. It has dark green needles and grows to three feet tall but can be staked to six feet or more.

Zone: 3 | Height: 6 Feet | Spread: 4 Feet
| Evergreen

-- Evergreen Beauty --

D. Norway Spruce *Picea abies*

The Norway Spruce is a tall growing evergreen with dark green needles and long sweeping branches and slight weeping. It is a fast growing tree and great for landscapes.

Zone: 3 | Height: 65 Feet | Spread: 25 Feet
| Evergreen

E. Bruns Serbian Spruce *Picea omorika 'Bruns'*

The Bruns Serbian Spruce has a tall, slender, pyramidal form that makes it very graceful in the landscape. It prefers full sun and well-drained soil but tolerates heat and wind.

Zone: 4 | Height: 30 Feet | Spread: 8 Feet | Evergreen

Spruce

A. Dwarf Serbian Spruce *Picea omorika 'Nana'*

The Dwarf Serbian Spruce has small blue-green needles with silver on the underside giving it a unique appearance. It is a perfect accent plant.

Zone: 4 | Height: 8 Feet | Spread: 8 Feet | Evergreen

B. Weeping Colorado Blue Spruce 'The Blues' *Picea pungens 'Gluaca Pendula The Blues'*

The Blues Weeping Colorado Spruce is a selection with a very unique form that can be trained in interesting ways. It makes an excellent accent in the landscape.

Zone: 3 | Height: 8 Feet | Spread: 4 Feet | Evergreen

C. Globosa Spruce *Picea pungens glauca 'Globosa'*

The Globosa Spruce is a small rounded evergreen with bright blue needles and a compact shape. Its size and color make it a perfect landscape plant. It prefers full sun and good drainage.

Zone: 2 | Height: 3 Feet | Spread: 5 Feet | Evergreen

Unique Garden Interest

Pines

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Vanderwolf Pine

Pinus 'Vanderwolf'

The Vanderwolf Pine is an excellent selection for landscapes due to its compact size and columnar habit. It has long, soft, blue green needles and maintains a nice shape. Medium growth rate.

Zone: 4 | Height: 30 Feet | Spread: 15 Feet | Evergreen

B. Bosnian Pine

Pinus leucodermis

The Bosnian Pine has beautiful dense green foliage and grows slowly to a pyramidal shape. It makes a perfect accent tree and does well in dry or shallow soils, and is deer resistant.

Zone: 4 | Height: 40 Feet | Spread: 10 Feet | Evergreen

C. Sherwood Compact Mugo Pine

Pinus mugo "Sherwood Compact"

This Compact Mugo Pine has a dense habit and rounded shape. This slow growing evergreen requires no pruning to maintain its neat form. Perfect for use in containers or rock gardens.

Zone: 2 | Height: 3 Feet | Spread: 4 Feet | Evergreen

D. Mugo Pine

Pinus mugo

The Mugo Pine is a popular small to medium size evergreen. It is a slow growing evergreen and is great for rock gardens and small spaces.

Zone: 4 | Height: 1.5 Feet | Spread: 3 Feet | Evergreen

E. Oregon Green Austrian Pine

Pinus nigra 'Oregon Green'

The Oregon Green Austrian Pine has deep, rich green needles densely spaced and curved against the branches. The unique, more open form creates a striking specimen.

Zone: 4 | Height: 15 Feet | Spread: 20 Feet | Evergreen

Pines

A. Austrian Pine

Pinus nigra

The Austrian Pine has a dense, stout pyramidal growth habit with a uniform crown. Branches are in regular whorls. Very hardy.

Zone: 4 | Height: 40 Feet | Spread: 25 Feet | Evergreen

B. Ponderosa Pine

Pinus ponderosa

The Ponderosa Pine is a large tree and pyramidal shape when young becoming broader with age. Its light green needles are aromatic when crushed.

Zone: 3 | Height: 120 Feet | Spread: 30 Feet | Evergreen

C. Eastern White Pine

Pinus strobus

The Eastern White Pine a good all-around evergreen. It is often used for Christmas trees, wind breaks, and wildlife habitats. Likes moist soil.

Zone: 4 | Height: 50 Feet | Spread: 30 Feet | Evergreen

D. Southwestern White Pine

Pinus Strobiformis

The Southwestern White Pine matures into a more open shape. Great for windbreaks and wildlife habitat and even Christmas trees. Low to moderate moisture requirements and likes full sun.

Zone: | Height: 50 Feet | Spread: 20 Feet | Evergreen

E. Weeping White Pine

Pinus strobus 'Pendula'

The Weeping White Pine shows great variability in its form and can be controlled with pruning. Its branches weep and twist in artistic patterns giving it interest. Fast growth rate.

Zone: 3 | Height: 20 Feet | Spread: 15 Feet | Evergreen

Planetree & Aspens

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Exclamation

Planetree

Platanus x *acerifolia*
'Morton Circle'

The Exclamation Planetree has an upright, pyramidal habit. It has a vigorous growth rate and is resistant to anthracnose. Fast growth rate.

Zone: 5 | Height: 55 Feet |
Spread: 35 Feet | Yellow Fall
Color | Fast growing

B. Mountain Sentinel

Aspen

Populus tremuloides 'JFS-Column'

The Mountain Sentinel Aspen is a very narrow and grows very upright, with silver-gray bark. Fast growth rate.

Zone: 3 | Height: 35 Feet |
Spread: 8 Feet | Golden Yellow
Fall Color | Fast growing

Why do Quaking Aspen leaves look like they are shivering?
The botanists say that it is due to the flattened leaf stalk, which is set perpendicular to the surface of the leaf, making a combination which renders the foliage so susceptible to the slightest movement of air. It is also an adaptation to strong wind. The flat petiole permits the leaves to twist easily and reconfigure, accounting for the resistance of aspen and other poplars to wind damage.

C. Quaking Aspen

Populus tremuloides

The Quaking Aspen has smooth, whitish bark with delicate leaves that flutter in the breeze. It is a tall, narrow tree with a rounded top and requires moist soil.

Zone: 2 | Height: 50 Feet |
Spread: 25 Feet | Golden Yellow
Fall Color | Fluttering Leaves

Plums

A.

A. Krauter Vesuvius Plum

Prunus cerasifera 'Krauter Vesuvius'

The Krauter Vesuvius Plum has an oval to round shaped with dark purple-black foliage. Is very tolerant to heat and drought.

Zone: 5 | Height: 20 Feet | Spread: 15 Feet | Pink Bloom | Bronze Fall Color | Hardy

B. Thundercloud Plum

Prunus cerasifera 'Thundercloud'

The Thundercloud Plum is a popular variety with a round, dense shape with dark purple foliage. It has light pink, sweet-smelling blooms in spring and is adaptable to urban conditions.

Zone: 5 | Height: 20 Feet | Spread: 20 Feet | Pink Bloom | Bronze Fall Color | Hardy

A.

Growing trees for landscapers and retail centers. Our focus at Garden Gate Nursery has been to provide our customers with high-quality shade and ornamental wholesale trees.

B.

Cherry

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Canada Red Chokecherry *Prunus virginiana 'Canada Red'*

The Canada Red Cherry has a pyramidal, rounded head with leaves that emerge green and turn red-purple as the weather warms. Fast growth rate.

Zone: 2 | Height: 25 Feet | Spread: 20 Feet
| White Bloom | Burgandy Fall Color | Hardy

B. Snow Fountain® Cherry *Prunus x Snofozam®*

The Snow Fountain Cherry is a small weeping tree that can be pruned into exquisite forms. It is heat and drought tolerant. Fast growth rate.

Zone: 5 | Height: 12 Feet | Spread: 12 Feet
| White Bloom | Gold to orange Fall Color | Weeping

C. Pink Flair Cherry *Prunus sargentii 'JFS-KW58'*

The Pink Flair Cherry is narrow and upright in form that is suited for urban landscapes.

Zone: 4 | Height: 25 Feet | Spread: 15 Feet
| Pink Bloom | Orange-red Fall Color | Narrow

D. Double Weeping Cherry syn. Yae-Shidare-Higan

Prunus subhirtella 'Pendula Plena Rosea'

The Double Weeping Cherry is a medium-sized ornamental tree with long weeping branches. It has light pink double flowers and tolerates conditions of heat, stress, and cold and is adaptable to poor soils.

Zone: 5 | Height: 30 Feet | Spread: 20 Feet
| Pink Bloom | Yellow Fall Color | Hardy

Pears

A. Aristocrat Pear

Pyrus calleryana 'Aristocrat'

The Aristocrat is a vigorous growing, upright tree. It adapts to a wide range of soil types.

Zone: 4 | Height: 40 Feet | Spread: 28 Feet | White Bloom | Red Fall Color | Hardy

B. Capital Pear

Pyrus Calleryana 'Capital'

The Capital Pear has a narrow, columnar growth habit and is ideal for use when space is very limited.

Zone: 5 | Height: 35 Feet | Spread: 12 Feet | White Bloom | Purple-Orange Fall Color | Narrow

C. New Bradford Flowering Pear

Pyrus calleryana 'Holmford'

The New Bradford Flowering Pear is an ornamental pear tree that is covered with a blanket of fragrant flowers in the spring. It has improved branching structure that reduces storm and winter damage and is very resistant to fireblight.

Zone: 5 | Height: 25 Feet | Spread: 20 Feet | White Bloom | Orange-maroon Fall Color | Hardy

D. Jack® Dwarf Flowering Pear

Pyrus calleryana 'Jaczam'

The Jack Dwarf® Flowering Pear has a compact upright oval form and is a heavy bloomer. Its dwarf form makes it a good choice for planting below utility lines and in tight spaces. Good in city applications. Slow growth rate.

Zone: 4 | Height: 16 Feet | Spread: 10 Feet | White Bloom | Yellow Fall Color | Small Tree

E.

E.

E. Chanticleer® Pear

Pyrus calleryana 'Glen's Form'

The Chanticleer® Pear is narrow, columnar shaped tree with pure white flower clusters. It is great street tree, hardy and disease resistant with good fall color.

Zone: 4 | Height: 40 Feet | Spread: 15 Feet | White Bloom | Red Fall Color | Hardy

F. Trinity Pear

Pyrus calleryana 'Trinity'

The Trinity Pear is a slightly smaller tree with a rounded, oval shape. It has a white spring bloom.

Zone: 5 | Height: 30 Feet | Spread: 25 Feet | White Bloom | Orange-red Fall Color | Stunning flowers

B.

C.

D.

Oaks

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. Scarlet Oak *Quercus coccinea*

The Scarlet Oak has a broad rounded shape and generally displays the finest fall color of the genus.

Zone: 5 | Height: 50 Feet | Spread: 50 Feet | Red Fall Color | Likes Sun

D. Regal Prince Oak *Quercus robur x bicolor 'Long'*

The Regal Prince Oak's mildew-resistant summer foliage is glossy, clean and bright green. It has excellent columnar form.

Zone: 4 | Height: 45 Feet | Spread: 18 Feet | Orange Fall Color | Narrow

B. Bur Oak *Quercus macrocarpa*

The Bur Oak's has a large, irregular open branching pattern. It tolerates many extreme conditions, such as drought, cold, wind, pollution, and salt. It produces acorns in the fall.

Zone: 3 | Height: 55 Feet | Spread: 30 Feet | Yellow Fall Color | Hardy

E. Kindred Spirit Oak *Quercus robur x bicolor 'Nadler'*

The Kindred Spirit Oak is somewhat smaller and one of the tightest forms of columnar oak. It has glossy mildew resistant leaves and is tolerant of urban environments.

Zone: 4 | Height: 30 Feet | Spread: 6 Feet | Yellow Fall Color | Narrow, Hardy

C. Pin Oak *Quercus palustris*

The Pin Oak's large, pyramidal shape rounds out as it matures. It is a beautiful tree that can withstand flooding and wet grounds.

Zone: 4 | Height: 55 Feet | Spread: 40 Feet | Red Fall Color | Hardy

F. Red Oak *Quercus rubra*

The Red Oak is a tall tree, with a symmetrically round shape. It is resistant to disease and insects and thrives in fertile soil. Fast growth rate.

Zone: 4 | Height: 50 Feet | Spread: 50 Feet | Red and Yellow Fall Color | Hardy

Buckthorn, Locust & Pagodatree

A. Glossy Buckthorn

Rhamnus frangula 'Columnaris'

This Buckthorn is a tall, narrow growing shrub that is ideal for creating a privacy screen where space is limited.

Zone: 2 | Height: 10 Feet | Spread: 4 Feet | White Bloom | Yellow Fall Color | Narrow

B. Purple Robe Locust

Robinia pseudoacacia

The Purple Robe Locust is a tough, fast growing tree which is well adapted to hot, dry climates. Fast growth rate.

Zone: 3 | Height: 50 Feet | Spread: 32 Feet | Purple Bloom | Red Fall Color | Colored new growth

C. Millstone Japanese Pagodatree

Sophora japonica 'Halka' PP 7554

The Millstone Japanese Pagodatree is known for its dense branching which creates a uniform, symmetrical canopy.

Zone: 5 | Height: 50 Feet | Spread: 45 Feet | White Bloom | Yellow Fall Color | Shade

marvel at a tree's
beauty. --

Ash, Lilac, Arborvitae

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

D.

A. Cardinal Royal® Mountain Ash

Sorbus aucuparia 'Michred'

The Cardinal Royal® Mountain Ash is a fast growing, narrow tree with an oval crown. It has green foliage with a silvery underside.

Zone: 2 | Height: 35 Feet | Spread: 20 Feet | White Bloom | Orange-red Fall Color | Interesting Leaves

B. 'Marley's Pink Parasol'

Styrax japonicus 'JL Weeping'

Marley's Pink Parasol has the best snowbells! It has loads of blushed pink flowers with bright red calyces and a cotton candy fragrance.

Zone: 5 | Height: 8 Feet | Spread: 4 Feet | Pink Bloom | Yellow Fall Color | Snowbell flowers

C. Ivory Silk Japanese Tree Lilac

Syringa reticulata 'Ivory Silk'

The Ivory Silk Japanese Lilac is an upright spreading tree with smooth peeling bark. Good below utility lines.

Zone: 4 | Height: 20 Feet | Spread: 15 Feet | Creamy White Bloom | Orange Fall Color | Utility Friendly

D. Green Giant Arborvitae

Thuja 'Green Giant'

The Green Giant Arborvitae is a fast growing pyramidal evergreen with a beautiful green color. This is a great replacement for a Leyland Cypress.

Zone: 5 | Height: 60 Feet | Spread: 12 Feet | Evergreen

C.

Linden & Elm

A. Greenspire® Linden

Tilia cordata 'Greenspire'

The Greenspire® Linden has an attractive pyramidal shape and bears small fragrant flowers in drooping clusters. It tolerates adverse conditions and makes a great all around tree.

Zone: 4 | Height: 40 Feet | Spread: 30 Feet | Yellow Bloom | Yellow Fall Color | Hardy

B. Harvest Gold Linden

Tilia cordata x mongolica 'Harvest Gold'

The Harvest Gold Linden is very hardy and fast growing.

Zone: 3 | Height: 40 Feet | Spread: 30 Feet | Golden Yellow Fall Color | Fast growing

C. Frontier Elm

Ulmus 'Frontier'

The Frontier Elm is a vase shaped elm with glossy green foliage. It is known for its compact size.

Zone: 4 | Height: 25 Feet | Spread: 15 Feet | Burgandy Fall Color | Small Tree

-- Brilliant beauty --

D. Accolade™ Elm

Ulmus japonica x wilsoniana 'Morton'

The Accolade™ Elm has excellent disease and pest resistance, as well as excellent drought tolerance. It has a graceful, vase like shape. Fast growth rate

Zone: 4 | Height: 70 Feet | Spread: 60 Feet | Yellow Fall Color | Hardy

Zelkova

Providing quality trees to nurseries and landscapers in the Pacific Northwest.

A. City Sprite Zelkova *Zelkova serrata 'JFS-KW1'*

The City Sprite Zelkova is compact, dense, and semi-dwarf. It is the perfect little tree for tight urban spaces and its growth habit promises low maintenance.

Zone: 5 | Height: 24 Feet | Spread: 18 Feet | yellow Fall Color | Hardy

B. Musashino Columnar Zelkova *Zelkova serrata 'Musashino'*

The Musashino Zelkova is ideal for narrow street use. Its tightly upright branches allow good vehicle and pedestrian clearance beneath the delicate green canopy.

Zone: 5 | Height: 45 Feet | Spread: 15 Feet | Yellow Fall Color | Great street tree

C. Green Vase® Zelkova *Zelkova serrata 'Green Vase'*

The Green Vase® Zelkova has a graceful, upright shape and is a vigorous grower. It makes a great shade tree and tolerates city conditions.

Zone: 5 | Height: 60 Feet | Spread: 40 Feet | Yellow Fall Color | Fast growing

D. Wireless® Zelkova *Zelkova serrata 'Schmidtlow'*

The Wireless® Zelkova is selected for its low height and broad spreading shape. It is an ideal shape for street plantings under utility lines. Fast growth rate.

Zone: 5 | Height: 24 Feet | Spread: 36 Feet | Red Fall Color | Utility Friendly

E. Village Green™ Zelkova *Zelkova serrata 'Village Green'*

The Village Green Zelkova has a rounded vase shape and straight trunk. It is a rapid grower tolerant of city conditions. Its foliage has sawtoothed edges.

Zone: 5 | Height: 50 Feet | Spread: 40 Feet | Rusty Red Fall Color | Hardy
