## About Us

**CADRE Construction** is likely the most unique commercial construction company you will find. Our diversity of service lines and areas of expertise set us apart from other General Contractors, all to the benefit of our clients.

Our founders, Charbel Dahdah and Ron Evans, are seasoned and active in **COMMERCIAL REAL ESTATE DEVELOPMENT**. We understand financing, capital risk, the pressures of the construction schedule, design decisions, the pride of ultimate ownership, and much more. These core developer competencies bring a deep understanding of the total construction process.

We have a large portfolio of **DESIGN-BUILD PROJECTS**, working with our partner civil engineers, architects and interior designers to create one-of-a-kind commercial spaces. Our construction expertise, development background, and turnkey model have helped thousands of clients turn their personal visions into their new places of work.

CADRE Construction's partners operate a **COMMERCIAL BROKERAGE** business. With combined experience of nearly forty years, our knowledge of land, office, industrial, retail and investment transactions services that can be bundled in client's unique circumstances as they pursue real estate opportunities, growth, dispositions, investments, and more.

CADRE also brings a **COMMERCIAL REAL ESTATE INVESTMENT** perspective to our projects and the relationship with our clients. We are passionate about commercial real estate, and we buy it for our own portfolios, often partnering with our clients. We invest our personal capital in commercial developments and acquisitions, further bolstering our owner-perspective.

Ultimately our service lines, depth of commercial real estate knowledge, and financial commitments as developers, owners, designers, and realtors give us the most unique set of tools available as your General Contractor.
