# Self-Checkout for Pharmacy

## Enhance Your Customer Experience With Secure Self-Service Terminals

## Why Self-Checkout?

**87% of Shoppers** say that self-checkout provides a better shopping experience.

**75% of Retailers** reported wait-related issues as the number one reason for losing customers.

**57% of Shoppers** prefer stores with touchless or robust self-checkout options.

## Why Maplewave?

### Class-Leading Hardware

Maplewave partners with Fujitsu, a leading digital transformation company with clients in 180 countries. Their premier modular self-checkout solutions are designed to be tailored for any type of retail environment.

### Simple Interface

Fujitsu's U-Scan software provides a simple user interface with a modern look and feel. Shoppers and staff will both find the interface intuitive to use.

### Enhanced Security

Fujitsu's U-SCAN Vision applies cutting-edge image recognition and machine learning technology to quickly identify items during checkout, which decreases losses due to human errors and theft.

### Flexible Hardware Options

A range of hardware units are available so you can fit your new self-checkouts within your current footprint without major renovations.

### Fully Integrated

All self-checkout hardware integrates with Maplewave's software, so inventory levels and sales information are updated in real-time as customers complete their transaction.
