The Board's proposals for resolution

Item 9 b) - Appropriation of profits

Item 16 – Determination of principles for remuneration and other terms of employment for senior executives

The Board of Directors proposes that the AGM resolves to approve the Board of Directors' proposal regarding principles for remuneration and other terms of employment for the CEO and other senior executives in accordance with the following.

Remuneration for the CEO and other senior executives shall consist of basic salary, variable salary, pension and other remuneration. All pension benefits shall be of the defined contribution type. Variable salary is prepared by the Remuneration Committee and resolved by the Board of Directors.

A. Fixed basic Salary

The fixed basic salary for the CEO and other senior executives is reviewed annually. The distribution between basic salary and, where applicable, variable salary, shall be proportionate to the executive's responsibilities and powers.

B. Variable salary (Short-Term Incentive STI)

The variable salary for the CEO shall amount to a maximum of 100 per cent of the annual salary. For other senior executives, the maximum amount of variable salary shall be equal to 60-100 per cent of an annual salary. The variable salary for the CEO and other senior executives is based on the outcome of a number of primarily quantitative parameters in relation to predetermined targets. The quantitative parameters relate to the company's share price performance, development of the company's net asset value per share and the focus issues of the respective financial year. Other senior executives, however not the CEO, shall also be subject to a discretionary parameter. The company's total cost for the total variable salary shall not exceed MSEK 8.0 (including social security payments).

C. Long term incentive program (Long Term Incentive LTI)

For the purpose of linking the interests of the employees with the interests of the shareholders and in order to encourage the employees' acquisitions of shares in the company, a long term incentive program shall, in addition to the annual variable salary described above, be applied in regard of all employees in the company with the following main components

- i. If an employee, during a certain time period and within the frames of the LTI, buys shares up to a certain amount, the company shall match this by cash payment of the same amount, compensated for the employee's marginal tax costs, in the form of a single payment (the "Matching Amount"). The employees shall be entitled to buy shares for an amount which is in proportion to the size of the fixed basic salary. The employee shall use the Matching Amount to acquire shares in the company. These shares shall by means of agreement be kept for at least 3 years.
- ii. If the requirements according to item iii. have been fulfilled, the company shall pay an additional single payment corresponding to the Matching Amount, however not compensated for the employee's marginal tax costs (the "Performance Amount"). The employee shall use the Performance Amount (after deduction has been made for the individual's tax) to acquire shares in the company. These shares shall by means of agreement be kept for at least 1 year.
- iii. The criteria for payment of the Performance Amount is, inter alia, that the employee is still employed and that he or she has kept his or her acquired shares according to item i. during the whole time period, and that the predetermined performance goals regarding the company's annual total revenue up until 2019 as established by the Board of Directors have been fulfilled.
- iv. The total cost for the company regarding payment of the Matching Amount and the Performance Amount shall not exceed MSEK 2.2.

Miscellaneous

To the extent that any Board member elected by the AGM performs work for the company in addition to Board work, market-based cash compensation shall be payable for such work pursuant to a Board resolution.

The Board of Directors may deviate from these guidelines in individual cases where there is special reason to do so.

Item 17 – Resolution regarding reduction of the company’s share capital and a bonus issue (cancellation of treasury shares)

The Board of Directors proposes that the AGM resolves to cancel treasury shares and carry out a bonus issue in accordance with the following proposal. The resolutions shall be passed together as a single decision.

i. Resolution regarding reduction of the share capital

The Board of Directors proposes that the AGM resolves to cancel the treasury shares repurchased based on earlier repurchase authorisations by way of a reduction in the company’s share capital by SEK 11,347,881.81 through the cancellation of a total of 1,501,000 shares without repayment for transfer to non-restricted reserves.

ii. Resolution regarding an increase in the share capital through a bonus issue

In order to achieve a time efficient procedure without requiring the permission of the Swedish Companies Registration Office or a court of law, the Board of Directors proposes that the AGM resolves to restore the company’s share capital to its original amount by increasing the company’s share capital by SEK 11,347,881.81 through a bonus issue without the issuance of new shares by transferring the issue amount from the company’s non-restricted equity to the company’s share capital.

Item 18 – Resolution regarding authorisation for the Board to decide on the repurchase of treasury shares

The Board of Directors proposes that the AGM resolves to authorise the Board of Directors to decide on the repurchase of treasury shares in accordance with the following. The repurchase of shares may be transacted only on Nasdaq Stockholm or in accordance with a tender offer to all shareholders in the company. The shares may be repurchased in a maximum number whereby Bure’s holding of treasury shares at no time exceeds 10 per cent of all registered shares in the company after cancellation and on the condition that there is still full coverage for the company’s restricted equity following the repurchase.

The above authorisation may be utilised on one or several occasions during the period ending on the date of the 2017 AGM. The repurchase of shares on the stock exchange may take place only at a price that is within the registered price interval on the stock exchange at any given time.

The motive for the above authorisation for the repurchase of treasury shares is to enable the Board to continuously adapt the capital structure to the company’s needs and thereby contribute to increased shareholder value. The repurchased shares are intended to be cancelled in connection with the 2017 AGM.

Majority requirements

For valid decision on items 17 and 18 according to the above proposals, the resolutions must be supported by shareholders representing at least two thirds (2/3) of both the number of votes cast and the number of shares represented at the AGM.

Authorisation

It is proposed that the CEO, or an individual appointed by the CEO, be authorised to make such necessary and minor changes as are required to enable registration of the resolutions with the Swedish Companies Registration Office.

Other

On the date of publication of this notice, the total number of shares and votes in the company amounted to 70,833,710 of which the company holds 1,501,000 shares and votes in treasury.

The shareholders are reminded of their right to request information from the Board of Directors and CEO at the AGM in accordance with Chapter 7, 32 § of the Swedish Companies Act.
